## **PETRO** Cloud Pro FLUIDS MANAGEMENT

Item code: iPETROCLOUDPRO-CATA

iPETRO Cloud Pro a secure web based service portal for complete management of home depot and home depot networks, allowing on-line, real-time transaction and stock management over defined ranges.

iPETRO Cloud Pro can accept data from your existing legacy systems including: Piusi, Compac, Transponder Technologies, Smartfill, Data Fuel.

There is no need to install any software or change your legacy hardware – our intelligent software will report data from your existing legacy hardware and your on road fluids consumption.

### FEATURES:

- Monitor every litre of fuel delivered, pumped and consumed.
- Real-time vehicle and driver statistics reports.
- Greater control and security – 24/7 access to your depot stocks and fuelling systems.
- iPETRO Cloud Pro provides the functionality for setting up cards, processing and monitoring transactions and much more.
- Online reporting packages – transaction, card, stock and MPG reports in various formats including Excel and PDF.
- Online stock management with tank gauges linked directly into terminal and iPETRO Cloud Pro website.
- Import of non-depot transactions from fuel card suppliers to report 100% of fleet usage for MPG and transaction reports (Non Standard package).
- Single or multi-site fuel and stock management .
- Monitor live transactions against dip readings shown on iPETRO Cloud Pro.
- Suitable for fleets ranging from 2 – 10,000 vehicles.
- Protection from environmental issues – System highlights if stock levels change without a transaction taking place. (Nonstandard Package)
- Instant control of terminal and card access through secure broadband connection.
- iPETRO Pro terminal links directly with the majority of tank gauges on the market.
