

iPETRO Pay

FLUIDS MANAGEMENT
On-site Payment Terminal

Now everyone with an **iPETRO Pay Console** will be able to take credit card details and sell their fuel to anyone.

NOTE: You would have to apply for a merchant number from the Commonwealth Bank.

The **iPETRO Pay** is a payment platform specifically designed for conducting credit card transactions in a mobile-friendly way. Such as a smartphone, can be used to initiate a credit card payment request by sending a SMS to the Credit Card holder. Payment is taken by WEB Platform and not by the actual terminal.

HOW IT WORKS:

Scan the QR Code on the Terminal using your SmartPhone.

You will receive a unique URL to your preferred method with further steps

Enter your personal details and credit card payment details.

Enter the Code on the Terminal and proceed with dispensing.

Receipt will be sent to your SmartPhone via an SMS.

BENEFITS:

- Secure payments on a unique encrypted transaction link allows the credit card holder to securely enter their card details directly with the payment service provider.
- No payment terminal required, only a web-enabled mobile device.
- Any SmartPhone with a camera. No mobile application is required.
- Funds are released to your bank account daily.
- iPETRO Pay has ALL the capabilities of iPETRO Pro.
- iPETRO Pay can be retrofitted to existing storage tanks.
- Compatible with the iPETRO PRO Remote Console.
- iPETRO Pay and iPETRO Pro Consoles are NMI Approved.
- Earn a passive income.
- Options to rent or buy fuel storage.

You have options:

You can buy, rent or upgrade your existing iPETRO Pro Terminal to iPETRO Pay.
