

iPETRO Pro FLUIDS MANAGEMENT REMOTE CONSOLE

Just like the product name suggest, **Remote Consoles** acts as slaves off the one Main iPETRO Pro Console, and is there for multiple dispensing scenarios on one site. It is therefor an extension of the main console.

This solution now allows up to 8 dispensing/pay points off one iPETRO Pro, using 4 Remote Consoles (2 dispensing points per console).

FEATURES & BENEFITS:

- Cost effective for small operators.
- The iPETRO PRO Console takes the data from each Remote Console and consolidates it in the Cloud
- QR Codes visible on each Remote console to make payment viable.
- Remote console will be able to work with the same payment options that the PRO.
- Operates up to 50m away from Main Console.
- Screen size is 18mm high and backlit.
- If for some reason it loses power, the display will still be visible to showcase the amount due.
- Simple and reliable design.
