

PETRO Tank FLUIDS MANAGEMENT

Item code: iPETROTANK

iPETRO Tank is an integrated live linked communication device designed to transmit the data from your automatic tank gauging system to the iPETRO Cloud web site.

View the contents of your tank, LIVE, via our iPETRO Cloud software package anywhere in the world 24/7.

We recommend pairing the iPETRO Tank with either the Piusi OCIO, Veeder Root TLS or Franklin Colibri Automatic Tank Gauges.

FEATURES:

The iPETRO Tank package is supplied with:

- iPETRO Tank Console.
- Ability to integrate with up to 4 x Automatic Tank Gauges.
- integrated modem and SIM card.
- 24 month iPETRO Cloud Web Site subscription.

iPETRO Tank is configured with various alarms and reports including:

- Tank low level.
- Tank high level.
- Tank theft alert.
- Tank contents.
- Tank history - filling and decanting.
- Suitable for use with Diesel, Lubricants, Coolant, Water, Adblue®, Chemicals, Gasoline and Aviation Fuels.
- **NOTE** for flammable liquids the iPETRO Console to be mounted outside of the defined site flammable vapour zone.

PETRO CLOUD PRO FLUIDS MANAGEMENT

Item code: iPETROCLOUDPRO-CATA

iPETRO Cloud Pro a secure web based service portal for complete management of home depot and home depot networks, allowing on-line, real-time transaction and stock management over defined ranges.

iPETRO Cloud Pro can accept data from your existing legacy systems including: Piusi, Compac, Transponder Technologies, Smartfill, Data Fuel.

There is no need to install any software or change your legacy hardware – our intelligent software will report data from your existing legacy hardware and your on road fluids consumption.

FEATURES:

- Monitor every litre of fuel delivered, pumped and consumed.
- Real-time vehicle and driver statistics reports.
- Greater control and security – 24/7 access to your depot stocks and fuelling systems.
- iPETRO Cloud Pro provides the functionality for setting up cards, processing and monitoring transactions and much more.
- Online reporting packages – transaction, card, stock and MPG reports in various formats including Excel and PDF.
- Online stock management with tank gauges linked directly into terminal and iPETRO Cloud Pro website.
- Import of non-depot transactions from fuel card suppliers to report 100% of fleet usage for MPG and transaction reports (Non Standard package).
- Single or multi-site fuel and stock management .
- Monitor live transactions against dip readings shown on iPETRO Cloud Pro.
- Suitable for fleets ranging from 2 – 10,000 vehicles.
- Protection from environmental issues – System highlights if stock levels change without a transaction taking place. (Nonstandard Package)
- Instant control of terminal and card access through secure broadband connection.
- iPETRO Pro terminal links directly with the majority of tank gauges on the market.
