Please Leave a Review!

Reviews are crucial for online shoppers like yourself.

We would love if you would help others and take the time to leave a review for our product and business.

If you are not 100% satisfied for any reason, please contact us immediately at

contact@ohmyclean.com

We will do whatever it takes to resolve the issue and make sure you are 100% satisfied with your shopping experience.

We want to hear your sincere thoughts on things like:

- Did our sponges meet/exceed your expectations? Why?
- Did they work as expected? What did you clean?
- Were you happy with our customer service, shipping, packaging, etc?
- Would you recommend Oh My Clean Eraser Sponges to a friend?

Leaving a review is easy! Just click here to leave a review!

1. [Click here to Rate Our Product](#) (5 Stars = I Love It!)
2. Write a short review sharing your experience.

That's all!

Thank you so much and happy cleaning with Oh My Clean!

How to Use Oh My Clean Magic Cleaning Eraser Sponges?

Oh My Clean Eraser Sponges are surprisingly easy to use.

And they are practically magic!

Here's how to get the most from your sponges:

- 1. Wet the sponge to activate**
- 2. Squeeze out excess water**
- 3. Scrub lightly - and watch the magic happen**

Wipe with a damp cloth or paper towel to remove any residue. Rinse your sponge and let dry when done.

For the toughest stains, you may need to lightly scrub again with your eraser sponge.

On these tough stains, it is a good idea to use a new sponge, especially if your old one is falling apart.

That's it!

Fast, simple, and no elbow grease required.

How NOT to Use Oh My Clean Magic Cleaning Eraser Sponges

Let's get this out of the way.

No, Oh My Clean Eraser Sponges are NOT TOXIC.

The magic ingredient in these sponges is melamine, which is perfectly safe to use.

Now that that's out of the way, let's get into it.

1. They are perfectly safe to use, but keep out of reach of kids and pets to avoid accidental ingestion.
2. Don't use on skin or other parts of the body. The cleaning scrubbers may cause a rash or burns.
3. Don't use on high gloss, copper, aluminum surfaces.
4. We have heard of success using on minor car body scratches, but to be safe we don't recommend this.
5. If you're unsure about a new surface, always test on an out-of-sight or small area first.

We have heard of some strange uses, and incredible success using melamine sponges.

If you have one to add to our list, please [email us](#) and let us know!
