Getting Started

How to Assemble

- Connect the handle to the scrubber head until you hear a “click”.

Adding the extension handle (optional)

- Connect the main handle to the extension handle until you hear a “click”.
- Connect the scrubber to the handle until you hear another “click”.

Choosing the brush head

- **Dome Brush** – Your “go-to” all around brush.
- **Flat Brush** – Perfect for flat surfaces.
- **Corner Brush** – Ideal for hard to clean corners and grout.

Charging

- Make sure that the unit is off before charging.
- A red indicator light means that the unit is charging.
- The very first charge will take 20 hours but succeeding charges will only take 8 hours.

6 Important Tips for Using Your Spin Scrubber

1. **You do not need to push very hard**, just make contact and let the brush do the cleaning
2. Hold the scrubber with two hands to stabilize the scrubber and help apply consistent pressure to the cleaning surface.
3. To maximize your scrubber's cleaning power, make sure that your cleaning solution provides sufficient moisture. This will be much more effective than using the scrubber on a dry surface.
4. You can mix baking soda, vinegar and dishwashing liquid for a more nature friendly cleaning solution.
5. Don't soak the scrubber in your cleaning solution, just spray the area that you want to clean and let your scrubber do its job.
6. Use Dawn to clean the brushes when you're done.

9 Chemical Free Cleaning Solutions

Toilet Bowl Cleaner

- Pour one cup of baking soda in the toilet and then follow with 2 cups of vinegar. After the fizzing and bubbling subsides, you can scrub the toilet with a toilet brush.

Bathtub and Sink Scrub

- Place 1 cup of baking soda in a bowl. Slowly add ½ cup castile soap until the mixture gets thick. Add in 3 to 4 drops of antibacterial essential oil like tea tree or peppermint. Scoop the mixture onto a sponge or damp cloth then scrub your bathtub and sink with the mixture.

All Purpose Spray

- Combine 1 cup white vinegar, 2 cups water, 1 tablespoon castile soap and 3 to 4 drops of an essential oil of your choice in a spray bottle. Spray on the areas that needs to be cleaned and give it a good scrub.

Clog Remover

- Pour ½ cup of baking soda down the drain then follow it with vinegar. Let it fizz for about 10 minutes then pour a kettle full of boiling hot water down the drain. Repeat with more water if necessary

Dishwasher Detergent

- Mix 1 cup of liquid castile soap with 1 cup of water and 2 teaspoons of lemon juice in a quart size glass jar. Put the mixture in one of the detergent compartments of your dishwasher then fill the other compartment with white vinegar.

Refrigerator Cleaner

- Add ½ cup of baking soda to a bucket of hot water. Wipe down the refrigerator's insides with this mixture to freshen it up!

Window and Mirror Cleaner

- Combine 1 part vinegar to 4 parts water and add a little lemon juice. Spray and soak on grimy looking mirrors and windows then give it a good wipe.

Furniture Polish

- Combine ¼ cup vinegar with ¾ cup olive oil and use a soft cloth to properly distribute the mixture over the furniture.

Silver Cleaner

- Line your sink or a bucket with aluminum foil and lay out the silver on top of the foil. Pour boiling water with 1 cup of baking soda and a pinch of salt. Soak the cutlery for few minutes then rinse.
