

Sweet Pickins All Natural Beeswax

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012) Revision date: 09/14/2022

Version: 1.0

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product form : Mixture
Trade name : Sweet Pickins All Natural Beeswax
Product code : 894530001008

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.3. Details of the supplier of the safety data sheet

[Sweet Pickins.Old Fashioned Milk Paint](#)
1617 E Meadow Brook Drive
Tooele, UT 84074
435-255-4556
www.milkpaint.com

1.4. Emergency telephone number

Emergency number : 435-255-4556

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

GHS-US classification

Not classified

2.2. Label elements

GHS-US labelling

No labelling applicable

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS US)

No data available

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Name	Product identifier	%	GHS-US classification
Olive oil	(CAS No.) 8001-25-0	50 - 90	Not classified
Beeswax (The wax obtained from the honeycomb of the bee. It consists primarily of myricyl palmitate, cerotic acid and esters and some high-carbon paraffins.)	(CAS No.) 8012-89-3	50 - 90	Not classified
Carnauba wax	(CAS No.) 8015-86-9	50 - 90	Not classified

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation : In case of excessive inhalation of fumes move the person to fresh air. Call for medical help.
First-aid measures after skin contact : Remove contaminated clothing. Wash skin thoroughly with mild soap and water. Risk of thermal burns on contact with molten product. Do not attempt to remove the molten material from the skin. After contact with molten product, cool skin area rapidly with cold water. Get medical advice/attention.
First-aid measures after eye contact : Vapors from molten wax may cause irritation and tearing. . Move the affected person away from the contaminated area and into the fresh air. Flush eyes with cool, clean, low-pressure water while occasionally lifting and lowering eyelids. Obtain medical attention if pain, blinking, tears or redness persist.
First-aid measures after ingestion : Do not induce vomiting. Seek medical attention immediately.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries : Overexposure may be irritating to the respiratory system.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

Sweet Pickins All Natural Beeswax

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: : Use extinguishing media appropriate for surrounding fire. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO₂), water spray, sand, earth.

5.2. Special hazards arising from the substance or mixture

Fire hazard : This material may burn but will not ignite readily. In case of burning without sufficient oxygen a black dense smoke is released.

5.3. Advice for firefighters

Protective equipment for firefighters : As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

Other information : Cool closed containers exposed to fire with water spray.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Protective equipment : For further information refer to section 8 : Exposure-controls/personal protection.

Emergency procedures : Do not breathe fumes from fires or vapours from decomposition. Avoid contact with skin and eyes.

6.1.2. For emergency responders

Protective equipment : For further information refer to section 8 : Exposure-controls/personal protection.

Emergency procedures : Evacuate unnecessary personnel. Avoid all eye and skin contact and do not breathe vapour and mist. Do not breathe fumes from fires or vapours from decomposition. Contact with walking surface may result in formation of slippery film/falling hazard.

6.2. Environmental precautions

Prevent runoff from entering drains, sewers or waterways.

6.3. Methods and material for containment and cleaning up

For containment : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Collect in closed containers for disposal. Disposal must be done according to official regulations.

Methods for cleaning up : If a major spill occurs, all personnel should be immediately evacuated and the area ventilated. Specialist clean-up methods may be required. Eliminate every possible source of ignition. Spill should be handled by trained cleaning personnel properly equipped with respiratory and eye protection.

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed : Repeated or prolonged contact may cause slight irritation to the skin. Harmful by prolonged exposure through inhalation and in contact with skin. Contact with walking surface may result in formation of slippery film/falling hazard.

Precautions for safe handling : Keep container closed when not in use. Avoid spilling the product, as this might cause falls. Handle in accordance with good industrial hygiene and safety procedures.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practices.

7.2. Conditions for safe storage, including any incompatibilities

Storage condition(s) : Store in original container. Store in tightly closed, properly ventilated containers away from heat, sparks, open flame, strong oxidizers, radiations, and other initiators. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose containers to flames, sparks, heat, or other potential ignition sources. Do not store near oxidizing agents. Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

Storage area : Store in dry, cool, well-ventilated area.

7.3. Specific end use(s)

No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

Appropriate engineering controls : Facilities: shower, eye shower. Ensure adequate ventilation.

Sweet Pickins All Natural Beeswax

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

Personal protective equipment : Gloves. In case of splash hazard: safety glasses. Protective clothing.

Hand protection : The use of thermally-resistant gloves is recommended when there is potential for exposure to molten wax.

Eye protection : Eye wash stations should be available in work areas. Where contact with eyes or skin is likely, wear suitable protection.

Skin and body protection : Wear suitable protective clothing.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	: Solid
Appearance	: wax. Pastes.
Colour	: light yellow.
odour	: characteristic.
Odour threshold	: No data available
pH	: No data available
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Self ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative density	: No data available
Solubility	: Water: insoluble in water
Log Pow	: No data available
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Explosive limits	: No data available

9.2. Other information

VOC content : 0.001 %

SECTION 10: Stability and reactivity

10.1. Reactivity

No additional information available

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

10.4. Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition.

10.5. Incompatible materials

Strong oxidizing agents.

10.6. Hazardous decomposition products

Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide.

Sweet Pickins All Natural Beeswax

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity	: Not classified
Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitisation	: Not classified
Germ cell mutagenicity	: Not classified
Carcinogenicity	: Not classified
Reproductive toxicity	: Not classified
Specific target organ toxicity (single exposure)	: Not classified
Specific target organ toxicity (repeated exposure)	: Not classified
Aspiration hazard	: Not classified

SECTION 12: Ecological information

12.1. Toxicity

No additional information available

12.2. Persistence and degradability

No additional information available

12.3. Bioaccumulative potential

No additional information available

12.4. Mobility in soil

No additional information available

12.5. Other adverse effects

No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste disposal recommendations : Waste must be disposed of in accordance with federal, state, and local environmental control regulations.

SECTION 14: Transport information

In accordance with ADR / RID / ADNR / IMDG / ICAO / IATA

14.1. UN number

Not applicable

14.2. UN proper shipping name

Not applicable

14.3. Additional information

Other information : No supplementary information available.

Overland transport

No additional information available

Transport by sea

No additional information available

Air transport

No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

Olive oil (8001-25-0)

Listed on the United States TSCA (Toxic Substances Control Act) inventory

Beeswax (The wax obtained from the honeycomb of the bee. It consists primarily of myricyl palmitate, cerotic acid and esters and some high-carbon paraffins.) (8012-89-3)

Listed on the United States TSCA (Toxic Substances Control Act) inventory

Sweet Pickins All Natural Beeswax

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

Carnauba wax (8015-86-9)

Listed on the United States TSCA (Toxic Substances Control Act) inventory

15.2. International regulations

CANADA

Olive oil (8001-25-0)

Listed on the Canadian DSL (Domestic Substances List) inventory.

WHMIS Classification

Uncontrolled product according to WHMIS classification criteria

Beeswax (The wax obtained from the honeycomb of the bee. It consists primarily of myricyl palmitate, cerotic acid and esters and some high-carbon paraffins.) (8012-89-3)

Listed on the Canadian DSL (Domestic Substances List) inventory.

Carnauba wax (8015-86-9)

Listed on the Canadian DSL (Domestic Substances List) inventory.

EU-Regulations

Olive oil (8001-25-0)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances) substances.

Beeswax (The wax obtained from the honeycomb of the bee. It consists primarily of myricyl palmitate, cerotic acid and esters and some high-carbon paraffins.) (8012-89-3)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances) substances.

Carnauba wax (8015-86-9)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances) substances.

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Classification according to Directive 67/548/EEC or 1999/45/EC

Not classified

15.2.2. National regulations

Olive oil (8001-25-0)

Listed on the AICS (the Australian Inventory of Chemical Substances).

Listed on Inventory of Existing Chemical Substances (IECSC)

Listed on the Korean ECL (Existing Chemical List) inventory.

Listed on New Zealand - Inventory of Chemicals (NZIoC)

Listed on Inventory of Chemicals and Chemical Substances (PICCS)

Beeswax (The wax obtained from the honeycomb of the bee. It consists primarily of myricyl palmitate, cerotic acid and esters and some high-carbon paraffins.) (8012-89-3)

Listed on the AICS (the Australian Inventory of Chemical Substances).

Listed on Inventory of Existing Chemical Substances (IECSC)

Listed on the Japanese ENCS (Existing & New Chemicals Substances) inventory.

Listed on the Korean ECL (Existing Chemical List) inventory.

Listed on New Zealand - Inventory of Chemicals (NZIoC)

Listed on Inventory of Chemicals and Chemical Substances (PICCS)

Carnauba wax (8015-86-9)

Listed on the AICS (the Australian Inventory of Chemical Substances).

Listed on Inventory of Existing Chemical Substances (IECSC)

Listed on the Korean ECL (Existing Chemical List) inventory.

Listed on New Zealand - Inventory of Chemicals (NZIoC)

Listed on Inventory of Chemicals and Chemical Substances (PICCS)

15.3. US State regulations

No additional information available

SECTION 16: Other information

SDS US (GHS HazCom 2012)

Sweet Pickins All Natural Beeswax

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
