

Kia ora! My name is... uhh...
I think I need your help
with that one!

Our new robot needs a name!

**"My clever creators at Learning Developments
have just finished inventing me, but they
forgot one little detail.... my name!"**

We need your help to come up with a name, so we're running a naming & colouring competition! The more creative, the better - we want to hear your wildest ideas with colour design to match!

Be in to win in just 3 easy steps:

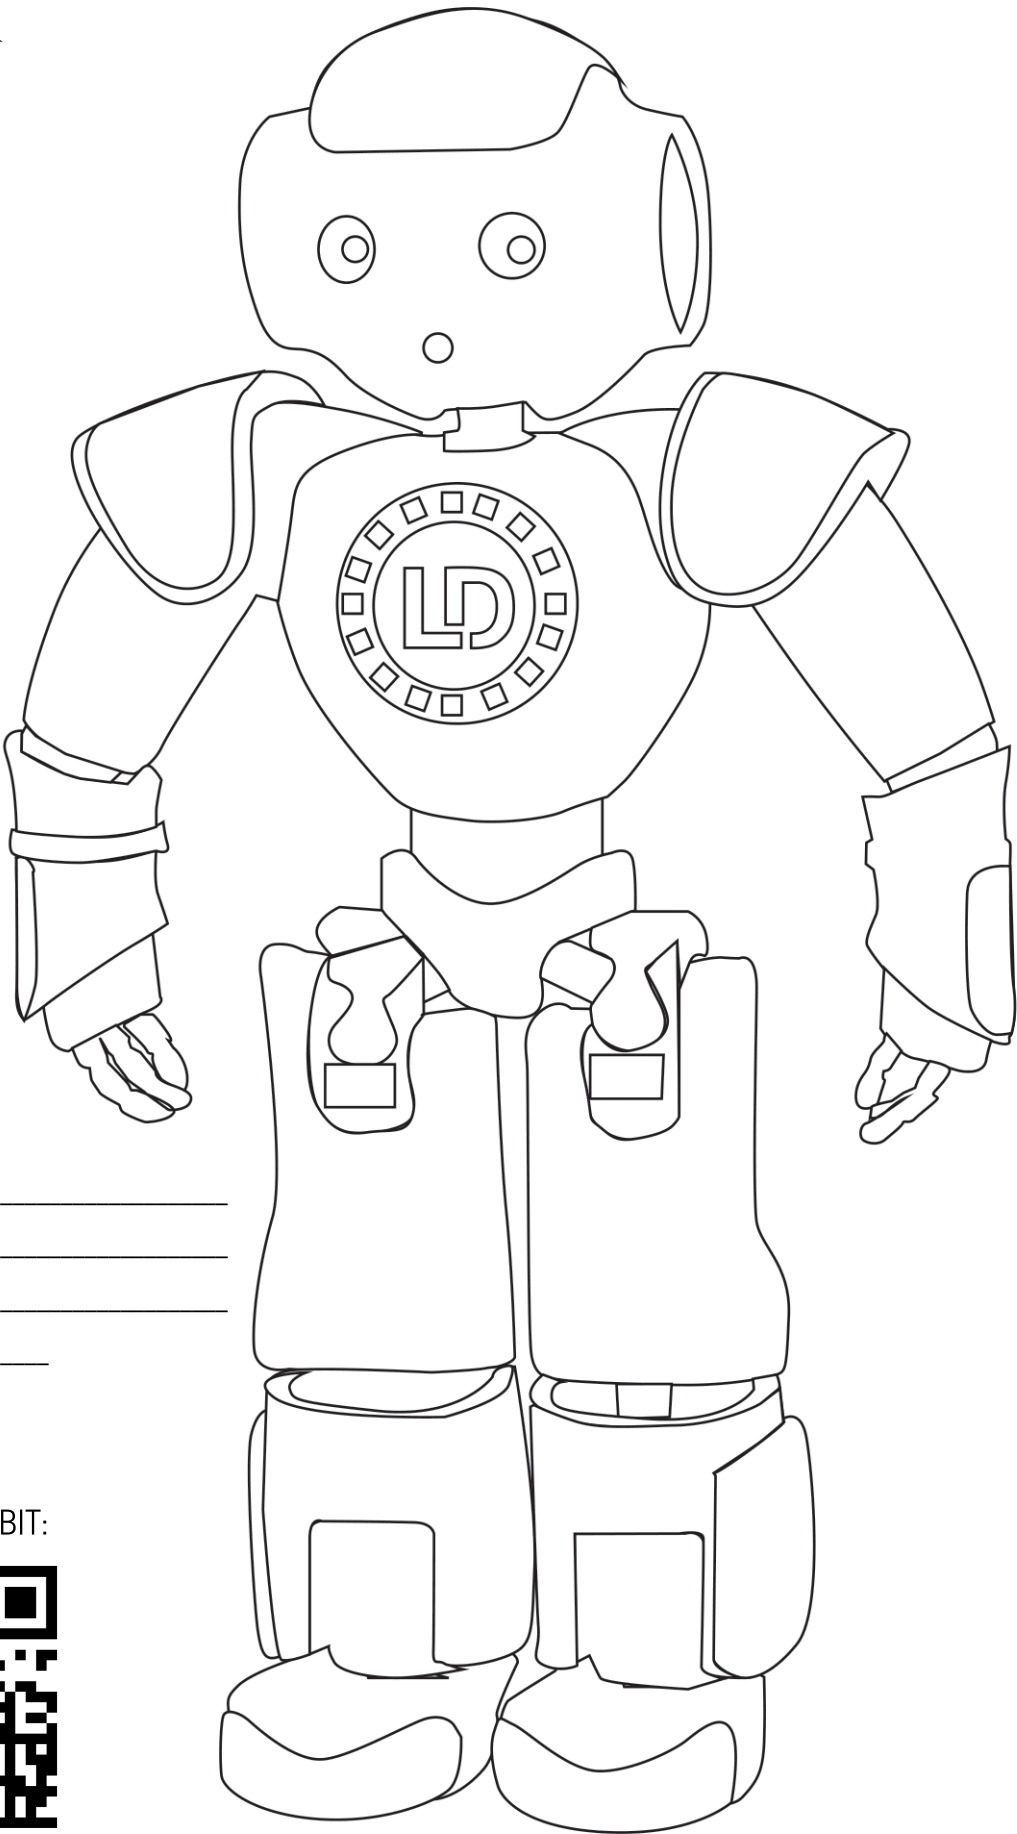

1. Print out the last page of this file
2. Colour in the robot and write your creative name at the top
3. Scan the QR code at the bottom of page 2, upload a photo or scan your picture, filling in the details on the form before submitting.

Winners in each division will receive a cool new prize for their classroom! We've just released our Paper Circuit kits, and you could be one of the first in the country to have it in your class. These kits are a simple and cost effective way of teaching STEAM in schools or at home.

Submissions close when our Stupendous September Sale ends, Wednesday 30th September - so get in quick! Our sale is on for September only - everything from batteries to electronics components, expansion boards and more. Check out our sale by scanning the QR code below or find us on Facebook for more details.

Kia ora! My name is: _____

School: _____

Student: _____

Age: _____
