These are components of the fragrance and present in ppm only. 4. FIRST AID MEASURES 4.1. Description of necessary first aid measures Rinse mouth out with water. Do not attempt to induce vomiting unless directed to do so by a physician. Never give anything by mouth to an unconscious person. If large quantities swallowed, seek medical advice immediately. Eye: Flush with water for 15 minutes including under eyelids. If person is wearing contact lenses, remove them prior to flushing. Seek medical advice if discomfort persists. May cause temporary local redness after application. Discontine use if irritation occurs; seek medical advice immediately. If respiratory symptoms develop whilst using molten material remove patient from area of exposure into fresh air. If symptoms persist, seek medical advice or immerse in cold water. Seek medical advice.	2.2. Risk phrase(s):	Not applicable

A.1. Description of necessary first aid measures Rinse mouth out with water. Do not attempt to induce vomiting unless directed to do so by a physician. Never give anything by mouth to an unconscious person. If large quantities swallowed, seek medical advice immediately. Eye: Flush with water for 15 minutes including under eyelids. If person is wearing contact lenses, remove them prior to flushing. Seek medical advice if discomfort persists. Skin: May cause temporary local redness after application. Discontinue use if irritation occurs; seek medical attention if discomfort persists. If directions for use not followed correctly and applied too hot may cause burns in which case flush with or immerse in cold water. Seek medical attention for burns. Inhalation:	· · · · · · · · · · · · · · · · · · ·				
Ingestion: Rinse mouth out with water. Do not attempt to induce vomiting unless directed to do so by a physician. Never give anything by mouth to an unconscious person. If large quantities swallowed, seek medical advice immediately. Eye: Flush with water for 15 minutes including under eyelids. If person is wearing contact lenses, remove them prior to flushing. Seek medical advice if discomfort persists. Skin: May cause temporary local redness after application. Discontinue use if irritation occurs; seek medical attention if discomfort persists. If directions for use not followed correctly and applied too hot may cause burns in which case flush with or immerse in cold water. Seek medical attention for burns. Inhalation: If respiratory symptoms develop whilst using molten material remove patient from area of exposure into fresh air. If symptoms persist, seek medical advice. 4.2. Medical Attention And Special Treatment First Aid Facilities: A source of clean water should be available in the work area for flushing eyes and skin.

5. FIRE FIGHTING MEASURES			
5.1. Flammable properties	T T		
5.2. Suitable extinguishing media:	Dry chemical, foam or water may be used. Do not use straight streams of water on burning material as it may cause spattering and spread the fire. Sand / earth can be used on small fires.		
5.3. Hazards from combustion products:	During a fire irritating and toxic gases (carbon dioxide, carbon monoxide etc.) may be produced by combustion or thermal decomposition. Wear a breathing apparatus		
5.4. Protective equipment for firefighters:	Move exposed containers from fire areas if possible. Firefighters should wear full protective clothing including self-contained breathing apparatus.		
6. ACCIDENT	AL RELEASE MEASURES		
6.1. Personal precautions	None known		
6.2. Environmental precautions	Do not discharge into lakes, streams, ponds or public waters. Advise authorities if the product has penetrated drains, sewers and water pipes.		
6.3. Methods for containment	Not applicable		
6.4. Methods for cleaning	Remains in solid form under normal conditions, pick up or sweep spilled product. If molten, allow to cool and scrape up.		
	LING AND STORAGE		
7.1. Handling	Avoid contact with eyes. Observe precautions found on label. Wash face and hands thoroughly with soap and water after use and before eating. Store containers upright and closed.		
7.2. Storage	Do not handle or store near open flames or sources of ignition. Keep out of reach of children. Avoid storage temperatures exceeding 50°C		
8. EXPOSURE CONT	ROLS/PERSONAL PROTECTION		
8.1. National exposure standards	None allocated		
8.2. Biological limit values	None allocated		
8.3. Engineering controls	General ventilation normally adequate		
8.4. Personal protective equipment	Gloves may be used to minimise contact.		
	ND CHEMICAL PROPERTIES		
9.1. Appearance: 9.2. Odour:	Opaque, magenta wax with metallic shimmer Synthetic fragrance resembling honeysuckle & pear		
9.3. Vapour Pressure:	Not available		
9.4. Vapour density:	Not available		
9.5. Softening point:	37 +/- 2°C		
9.6. Melting point:	60 +/- 5°C		
9.7. Solubility in water:	Insoluble		
9.8. Specific gravity:	0.89 – 0.95 g/mL		
9.9. Flammable materials information:			
flash point and method of detecting flash point; upper and lower flammable (explosive) limits in air; and	Not applicable Not determined		
ignition temperature.	Not determined		
9.10. Viscosity at room temperature:	Solid		
9.11. Percent volatile:	Not available		
10. STABILITY AND REACTIVITY			
10.1. Chemical Stability:	Stable under normal condition. May react with strong oxidising agents		
10.2. Conditions to avoid:	Do not mix with other chemicals. Keep away from moisture. Avoid storage temperature exceeding 50°C		
10.3. Incompatible materials:	oxidisers		
10.4. Hazardous decomposition products:	Combustion may yield large amounts of oxides of carbon, smoke, incomplete combustion products, flammable		
10.5. Hazardous reactions:	hydrocarbons. None known		
TO.J. Hazaruous reactions.	Notic Kilowii

11. TOXICOLOGICAL INFORMATION			
11.1. Likely routes of exposure:	Skin, eyes, inhaled.		
11.2. Health effects from the likely routes of			
exposure:			
11.2.1. Acute	No specific toxicological data is available.		
Ingestion:	Product may induce nausea.		
Eye:	May cause abrasive irritation to the eyes if they come into		
	contact with the product.		
Skin:	Not expected to be an irritant but may cause temporary local		
	redness after application.		
Inhalation:	When heated, the vapour/fumes given off may cause		
	respiratory tract irritation.		
11.2.2. Chronic	No long term effects are known.		
11.3. Other Information:	None		
12. ECOLO	GICAL INFORMATION		
12.1. Ecotoxicity:	Not expected to be harmful to aquatic or terrestrial organisms.		
12.2. Persistence and degradability:	Expected to be persistent.		
12.3. Mobility:	Expected to partition to sediment and wastewater solids.		
	Minimally volatile.		
13. DISPOSAL CONSIDERATIONS			
13.1. Disposal methods and containers:	Dispose the waste as a non-hazardous organic solid according		
	to local and state regulations.		
	Contact relevant authority for details. No special		
	considerations for containers.		
14. TRANSPORT INFORMATION			
14.1. UN Number:	Not applicable		
14.2. UN Proper Shipping Name:	Not applicable		
14.3. Class and subsidiary risk:	Not applicable		
14.4. Packing Group:	Not applicable		
14.5. Special precautions for user:	Not applicable		
14.6. Hazchem Code:	Not applicable		
15. REGULATORY INFORMATION			
15.1. Regulatory Status:	Not applicable		
16. OTH	ER INFORMATION		
16.1. Document Information:	Document Issued 08/04/2024		
	Replaces 01/07/2019		
16.2. Additional Information:	The information contained in this MSDS is, to the best of Beauty		
	Brands' knowledge and belief, accurate and reliable as of		
	the date issued. The information is provided without any		
	warranty, expressed or implied regarding its correctness or		
	accuracy. Similarly, no warranty expressed or implied shall be		
	created or inferred regarding the product described in this		
	MSDS and Beauty Brands Group Pty Ltd will not assume liability		
	for any loss or damage arising out of the use of this		
	information. It is the user's responsibility to satisfy itself that		
	the product is suitable for its intended use
