

Section 1: Identification of Chemical, Product and Company

Address: Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220
Telephone: 07 5576 6388
Web/E-mail: www.eximport.com.au or info@eximport.com.au
Substance: Aqua Activator
Trade name: Elleebana PH Activator
Product Use: Aqua used for mixing with Henna Powders to colour hair
Creation Date: January 2019
Revision Date: January 2023

Section 2: Composition, Information on Ingredients

Pure Substance:

Ingredients I.N.C.I

I.N.C.I.	CAS Number:
Aqua	7732-18-5
Embllica Officinalis	84696-21-9
Cassia Obovata Extract	85085-71-8
Acacia Concinna	202148-87-6
Lawsonia Inermis	84988-66-9
Glycerin	56-81-5
Glycyrrhiza Glabra	84775-66-6
Sodium L-pyroglutamate	28874-51-3
Propylene glycol	57-55-6
Xylitylglucoside - Anhydroxylitol - Xylitol.	-
D-Panthenol	81-13-0
Sodium chloride	7440-23-5
Tocopheryl Acetate	7695-91-2
Benzyl Alcohol	100-51-6
Citric Acid	77-92-9
Sodium Benzoate	532-32-1
Potassium Sorbate	24634-61-5
Parfum	8000-46-2

Mixture:

Chemical Properties: Liquid
Name of Hazard Substance: None
Concentrations (Percentage): None
Hazard Class and Label: None

* Ingredients vary between products. List of ingredients will appear on individual product labels.
This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

Section 3: Potential Health Effects

Physical Description & Colour: Fine pale liquid

Odour: No odour

Flammable: Combustible solid, produces oxides of carbon when burning.

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects

Inhalation:

Short Term Exposure: May cause respiratory tract irritation. The toxicological properties of this substance have not been fully investigated.

Long Term Exposure: No data for health effects associated with long-term inhalation.

Skin Contact:

Short Term Exposure: Available data indicates that this product is not harmful. It should present no hazards in normal use. Product may be mildly irritating but is unlikely to cause anything more than mild discomfort, which should disappear once contact ceases.

Long Term Exposure: No data for health effects associated with long-term skin exposure.

Eye Contact:

Short Term Exposure: This product is believed to be mildly irritating to eyes.

Long Term Exposure: No data for health effects associated with long-term eye exposure.

Ingestion:

Short Term Exposure: May cause digestive tract disturbances. The toxicological properties of this substance have not been fully investigated. May be harmful if swallowed.

Long Term Exposure: No data for health effects associated with long-term ingestion.

Carcinogen Status:

ASCC: No significant ingredient is classified as carcinogenic by ASCC.

NTP: No Significant ingredient is classified as carcinogenic by NTP.

IARC: No significant ingredient is classified as carcinogenic by IARC.

Section 4 – First Aid Measures

General Information:

Call the Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. Please have this Material Safety Data Sheet on hand when you call.

Inhalation: Get medical aid immediately. Remove from exposure to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

Eye Contact: Thoroughly rinsing for 15-20 minutes of the affected eye with water is recommended. If discomfort or irritation persists, contact a physician.

Ingestion: Accidental ingestion of product may necessitate medical attention. Wash out mouth with water and give water slowly to dilute [as much as casualty can comfortably drink] provided person is conscious. Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconsciousness. Do not induce vomiting. Note: After first aid treatment, the caller should be advised that 1) a hospital emergency room or family physician should be consulted if anything unusual occurs or appears necessary in the judgment of the caller, and 2) that the subsequent management of the accident should be dictated by any persistent symptoms and under the direction of the physician.

Skin Reaction: Discontinue use of product. Apply cold compresses to affected areas to relieve any discomfort. If discomfort persists, contact a physician.

Section 5 – Fire Fighting Measures

Fire and Explosion Hazards: There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Fire decomposition products from this product are likely to be irritating if inhaled.

Extinguishing Media: Water Spray; Carbon Dioxide; Dry Chemical; Universal-Type Foam

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash Point: Does not burn

Upper Flammability Limit: Does not burn

Lower Flammability Limit: Does not burn

Auto Ignition temperature: Does not burn

Flammability Class: Does not burn

Section 6: Accidental Release Measures

Accidental Release: This product is sold in small packages, and the accidental release from one of these is not usually a cause for concern. For minor spills, clean up, rinsing to sewer and put empty container in garbage. Although no special protective clothing is normally necessary because of occasional minor contact with this product, it is good practise to wear impermeable gloves when handling chemical products. In the event of a major spill, prevent spillage from entering drains or watercourses and call emergency service.

Section 7: Handling & Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this MSDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risk to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Non-hazardous material. Store packages of this product in a cool well-ventilated place, container lids closed and away from direct sunlight and extreme heat. Do not freeze. Check packaging – there may be further storage instructions on the label.

Section 8: Exposure Controls and Personal Protection

For Household Settings:

This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseen use.

For Non-Household Settings:

Use in a well-ventilated area. Use safety glasses or safety goggles if airborne mist hazards exist; use gloves and other protective clothing (apron, boots etc.) to prevent skin contact. Always follow good hygienic work practices. Avoid prolonged contact with skin and clothing. This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseen use.

Section 9: Physical and Chemical Properties

Physical Description & colour:	Fine pale liquid
Odour:	Characteristic
Bulk Density:	Not available
Refractive index:	Not applicable
Optical Rotation:	Not applicable
pH:	Not available
Solubility:	Dispersible in vegetable oils
Solubility in water:	Dispersible
Flash point:	Not available
Flammability limits:	(as % v/v in air)
Lower explosion limit:	Not available
Upper explosion limit:	Not available
Auto Ignition Temperature:	Not available
Melting point:	Not available
Boiling Point:	Not available
Vapour pressure:	Not available
Vapour density:	Not available

Section 10: Stability and Reactivity

Reactivity: Do not allow product to solidify in filled, closed containers. This product is unlikely to react or decompose under normal storage conditions, however, if you have any doubts, contact the supplier. Shelf life for this product is 18 months or 6 months after opening.

Incompatibilities: No incompatibilities

Minimum durability before opening: 2 – 3 years

Minimum durability after opening: 6 months

Section 11: Toxicological Information

This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. Additional information on toxicological endpoints is available from the supplier upon request.

Section 12: Ecological Information

Eco-toxicity: None established. Avoid pollution to soil, rivers and the ocean.

Mobility: Low mobility in the soil.

Persistence & Degradability: Low persistence level and readily biodegradable.

Bio-accumulative Potential: None established.

Other Adverse Effects: None established.

Section 13: Spillage and Disposal Considerations

Spillage:	Collect as per Section 6
Method of Disposal:	There are many pieces of legislation covering waste disposal and they differ in each state and territory, so each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. The hierarchy of controls seem to be common – the user should investigate: Reduces, Reuse, and Recycle and only if all else fails should disposal be considered. Note those properties of a product may change in use, so that the following suggestions may no always be appropriate.
Package Disposal:	Cardboard units are generally recyclable if the product has not been contaminated. Only if neither of these options is suitable should landfill be considered.

Section 14: Transport Information

ADG Code Classification: Not classified as a hazardous material or as a Dangerous good. No special transport conditions are necessary unless required by other regulations

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

Section 15: Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

Section 16: Other Information

This MSDS contains only safety-related information. For other data see product literature.

ACRONYMS:

ADG Code Australian Code for the Transport of Dangerous Goods by Road and Rail

AICS Australian Inventory of Chemical Substances

ASCC Office of the Australian Safety and Compensation Council

CAS Number Chemical Abstract Service Registry Number

IARC International Agency for Research on Cancer

NTP National Toxicology Program (USA)
