

**Section 1: Identification of Chemical, Product and Company**

**Address:** Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220  
**Telephone:** 07 5576 6388  
**Web/E-mail:** [www.eximport.com.au](http://www.eximport.com.au) or [info@eximport.com.au](mailto:info@eximport.com.au)  
**Substance:** Primer  
**Trade name:** Elleebana Lash and Brow Primer  
**Product Use:** Primer used to prepare lashes for lash extensions applications  
**Creation Date:** January 2019  
**Revision Date:** January 2023

**Section 2: Composition, Information on Ingredients**

**Pure Substance:**

**Ingredients I.N.C.I**

I.N.C.I.	CAS Number:
Water	7732-18-5
PVP	9003-39-8
Poly (Acrylate)	9003-04-7
Ethanol	64-17-5
Others	N/A

\* Ingredients vary between products. List of ingredients will appear on individual product labels.

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

This ASCC TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 (eight) hour working day for a 5 (five) day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 (four) times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

**Section 3: Potential Health Effects**

**Mixture:**

**Chemical Properties:** Liquid  
**Name of Hazard Substance:** None  
**Concentrations (Percentage):** None  
**Hazard Class and Label:** None  
**Physical Description & Colour:** Colourless liquid  
**Odour:** Mild odour  
**Major Health Hazards:** No significant risk factors have been found for this product.

**Potential Health Effects**

**Inhalation:**

**Short Term Exposure:** May cause respiratory tract irritation. The toxicological properties of this substance have not been fully investigated.

**Long Term Exposure:** No data for health effects associated with long-term inhalation.

**Skin Contact:**

**Short Term Exposure:** Available data indicates that this product is not harmful. It should present no hazards in normal use. Product may be mildly irritating, but is unlikely to cause anything more than mild discomfort, which should disappear once contact ceases.

**Long Term Exposure:** No data for health effects associated with long-term skin exposure.

**Eye Contact:**

**Short Term Exposure:** This product is believed to be mildly irritating to eyes.

**Long Term Exposure:** No data for health effects associated with long-term eye exposure.

**Ingestion:**

**Short Term Exposure:** May cause digestive tract disturbances. The toxicological properties of this substance have not been fully investigated. May be harmful if swallowed.

**Long Term Exposure:** No data for health effects associated with long-term ingestion.

**Carcinogen Status:**

**ASCC:** No significant ingredient is classified as carcinogenic by ASCC.

**NTP:** No Significant ingredient is classified as carcinogenic by NTP.

**IARC:** No significant ingredient is classified as carcinogenic by IARC.

#### **Section 4: First Aid Measures**

**General Information:**

Call the Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. Please have this Material Safety Data Sheet on hand when you call.

**Inhalation:** Get medical aid immediately. Remove from exposure to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

**Skin Contact:** Flush with lukewarm, gently flowing water for 5 minutes or until chemical is removed.

**Eye Contact:** Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed, while holding the eyelid(s) open. Obtain medical advice immediately if irritation occurs. Take special care if exposed person is wearing contact lenses.

**Ingestion:** If victim is conscious and alert, give 2-4 cups of milk or water. Never give anything by mouth to an unconscious person. Get medical aid immediately. If symptoms present or develop, or if in doubt contact a Poisons Information Centre or a doctor.

#### **Section 5: Fire Fighting Measures**

**Fire and Explosion Hazards:** As in any fire, wear a self-contained breathing apparatus in pressure demand, MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

**Extinguishing Media:** In case of fire, use water, dry chemical, chemical foam, or alcohol-resistant foam.

**Fire Fighting:** If a significant quantity of this product is involved in a fire, call the fire brigade.

**Flash Point:** 135°C

**Upper Flammability Limit:** 16.00 vol %

**Lower Flammability Limit:** 3.60 vol %

**Auto Ignition temperature:** 455°C (851.00 °F)

**Flammability Class:** 1

#### **Section 6: Accidental Release Measures**

**Accidental Release:** Use proper personal protective equipment as indicated in Section 8. For minor spills, absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. Clean up spills immediately,

observing precautions in the Protective Equipment section. Provide ventilation. In the event of a major spill, prevent spillage from entering drains or watercourses and call emergency service.

#### **Section 7: Handling & Storage**

**Handling:** Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Use with adequate ventilation. Avoid contact with eyes, skin, and clothing. Keep container tightly closed. Avoid ingestion and inhalation.

**Storage:** Keep container closed when not in use. Store in a cool, dry, well-ventilated area away from incompatible substances. Keep containers tightly closed. Store protected from moisture.

#### **Section 8: Exposure Controls and Personal Protection**

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: AS/NZS 1715, Protective Gloves: AS 2161, Industrial Clothing: AS2919, Industrial Eye Protection: AS 1336 and AS/NZS 1337, Occupational protective Footwear: AS/NZS2210.

**ASCC Exposure Limits**                      **TWA (mg/m<sup>3</sup>)**    **STEL (mg/m<sup>3</sup>)**

Exposure limits have not been established by ASCC for any of the significant ingredients in this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

**Ventilation:** No special requirements are normally necessary for this product. However, make sure that the work environment remains clean and that vapours and mists are minimised.

**Eye Protection:** Eye protection such as protective glasses or goggles is recommended when this product is being used.

**Skin Protection:** The use of gloves impermeable to the specific material handled is advised to protect skin contact and possible irritation.

**Protective Material Types:** There is no specific recommendation for any particular protective material type.

**Respirator:** Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned above.

### **Section 9: Physical and Chemical Properties**

Physical Description & colour:	Clear liquid
Odour:	Mild odour
Boiling Point:	Approximately 100°C
Freezing/Melting point:	No data
Volatiles:	Water component
Vapour Pressure:	No data
Vapour Density:	No data
Water Solubility:	Soluble
pH:	No data
VOC %:	No data

### **Section 10: Stability and Reactivity**

**Reactivity:** This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier. Shelf life for this product is 2 years or 12 months after opening.

**Conditions to Avoid:** This product should be kept in a cool place, preferably below 24°C. Oxidation will occur if the product is not correctly sealed.

**Incompatibilities:** No particular incompatibilities

**Fire Decomposition:** Thermal decomposition may yield acrylic monomer, carbon monoxide and carbon dioxide. Unidentified organic compounds in fumes and smoke may be formed during combustion.

**Hazardous Polymerisation:** Will not occur

**Minimum durability before opening:** 24 months

**Minimum durability after opening:** 12 months

### **Section 11: Toxicological Information**

No tested data exists but the nature and concentration of the components suggest that no acute toxic effects are to be expected when used according to directions for topical application.

**Local Effects:** Eye contact may cause stinging or irritation, if applied to skin – remove.

**Target Organs:** There is no data to hand indicating any particular target organs.

**Classification of**

**Hazardous Ingredients:** No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations.

### **Classification of Hazardous Ingredients**

Ingredient	Risk Phrases
Heterocyclic ketone	Conc>=20%: Xi; R36 LD50 Oral, Rat 29000mg/kg

### **Section 12: Ecological Information**

No ecological or special considerations apply for use of normal pack sizes.

Not considered environmentally harmful from normal dilution, expected usage and typical drainage to sewers, septic systems and treatment plants.

### **Section 13: Spillage and Disposal Considerations**

**Spillage:** Collect as per section 6

**Method of Disposal:** There are many pieces of legislation covering waste disposal and they differ in each state and territory, so each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. The hierarchy of controls seem to be common – the user should investigate: Reduces, Reuse, and Recycle and only if all else fails should disposal be considered. Note those properties of a product may change in use, so that the following suggestions may no always be appropriate.

**Package Disposal:** Consult appropriate federal, state and local regulatory agencies to ascertain proper disposal procedures.

### **Section 14: Transport Information**

**UN Number:** This product is not classified as a Dangerous Good by ADG, IATA or IMDG/IMSBC criteria.

No special transport conditions are necessary unless required by other regulations.

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

### **Section 15: Regulatory Information**

**AICS:** This product is compliant with NICNAS regulations.

### **Section 16: Other Information**

**This MSDS contains only safety-related information. For other data see product literature.**
