

Section 1: Identification of Chemical, Product and Company

Address: Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220
Telephone: 07 5576 6388
Web/E-mail: www.eximport.com.au or info@eximport.com.au
Substance: Brow Pencil
Trade name: Elleebana Precision Brow Series Brow Pencil – Light Ash Brown
Product Use: Brow Make-up
Creation Date: April 2019
Revision Date: April 2023

Section 2: Composition, Information on Ingredients

Pure Substance:

Ingredients I.N.C.I

I.N.C.I.	CAS Number:
Beeswax (Cera Alba)	8012-89-3
Carnauba wax	8015-86-9
Ozokerite	64742-33-2
Castor Oil	8001-79-4
Dimethicone	63148-62-9
Petrolatum	8009-03-8
Phenoxyethanol	122-99-6
Sorbic Acid	110-44-1
C.I.77499	1317-61-9
C.I.77492	20344-49-4
C.I.77891	13463-67-7

Mixture:

Chemical Properties: Cream
Name of Hazard Substance: None
Concentrations (Percentage): None
Hazard Class and Label: None

Section 3: Potential Health Effects

Physical Description & Colour: Cream/Light Brown

Odour: No odour

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects

Inhalation:

Short Term Exposure: Exposure via inhalation not likely. High vapor or aerosol mist concentrations may be irritating to the nose, throat and upper respiratory tract.

Long Term Exposure: No data for health effects associated with long-term inhalation.

Skin Contact:

Short Term Exposure: This product is may cause moderate skin irritation.

Long Term Exposure: No data for health effects associated with long-term skin exposure.

Eye Contact:

Short Term Exposure: This product is may cause irritation to eyes.

Long Term Exposure: No data for health effects associated with long-term eye exposure.

Ingestion:

Short Term Exposure: Ingestion of large amounts may produce gastrointestinal disturbances including irritation, nausea, and diarrhea.

Long Term Exposure: Not data for health effects associated with long-term ingestion.

Carcinogen Status:

ASCC: No significant ingredient is classified as carcinogenic by ASCC.

NTP: No Significant ingredient is classified as carcinogenic by NTP.

IARC: No significant ingredient is classified as carcinogenic by IARC.

Section 4 – First Aid Measures

General Information:

Call the Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. Please have this Material Safety Data Sheet on hand when you call.

Inhalation: If symptoms are experienced, remove source of contamination or move victim to fresh air. If symptoms persist, get medical attention. If the affected person is not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.

Eye Contact: Rinse immediately with plenty of water for at least 3 minutes. Immediate medical attention is required.

Ingestion: If ingestion of large amount does occur, seek medical attention. Do not induce vomiting.

Skin Reaction: For skin contact flush with large amounts of water. If irritation persists, get medical attention. Immediately take off all contaminated clothing. Wash contaminated clothing before reuse.

Section 5 – Fire Fighting Measures

Fire and Explosion Hazards: There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Fire decomposition products from this product are likely to be irritating if inhaled.

Extinguishing Media: Dry chemical, foam, carbon dioxide, water fog.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash Point: Does not burn

Upper Flammability Limit: Does not burn

Lower Flammability Limit: Does not burn

Auto Ignition temperature: Does not burn

Flammability Class: Does not burn

Section 6: Accidental Release Measures

Accidental Release: Isolate spill or leak area immediately. Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Ventilate closed spaces before entering.

Do not touch or walk through spilled material. Wear appropriate personal protective equipment during clean-up.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal.

Large Spill: Dike ahead of liquid spill for later disposal. Prevent entry into waterways, sewers, basements or confined areas.

Surfaces may become slippery after spillage.

Methods for cleaning up: Contain spilled material. Wash area with hot soapy water

Section 7: Handling & Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this MSDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risk to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Handling advice: Since emptied containers retain product residues, all hazard precautions described on the MSDS must be observed. Avoid container damage while handling and storing.

Storage conditions: Keep the container tightly closed in a cool, well-ventilated place.

To maintain product do not store in heat or direct sunlight.

Storage temperature: $\geq 1^{\circ}\text{C}$

Storage temperature: $\leq 38^{\circ}\text{C}$

Section 8: Exposure Controls and Personal Protection

For Household Settings:

This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseen use.

For Non-Household Settings:

Technical protective measures: None known

Components with workplace control parameters: None known

Personal protective equipment: None known

General safety and hygiene measures: Normal handling precautions and storage consistent with good manufacturing practices should be followed.

Section 9: Physical and Chemical Properties

Physical Description & colour:	Cream
Odour:	No odour
Bulk Density:	Not available
Refractive index:	Not applicable
Optical Rotation:	Not applicable
pH:	(25°C, 10%): 5.5–8.0
Solubility:	Dispersible in vegetable oils
Solubility in water:	Dispersible
Flash point:	Not available
Flammability limits:	(as % v/v in air)
Lower explosion limit:	Not available
Upper explosion limit:	Not available
Auto Ignition Temperature:	Not available
Melting point:	Not available
Boiling Point:	Not available
Vapour pressure:	Not available
Vapour density:	Not available

Section 10: Stability and Reactivity

Conditions to avoid: Avoid strong oxidizing agents, alkali and acids.

Hazardous decomposition products: None known.

Minimum durability before opening: 3 years

Minimum durability after opening: 6 months

Section 11: Toxicological Information

Toxicity:	Not considered toxic substance.
Skin irritation :	Non irritation
Eye irritation :	Irritation
Mutagenicity:	Non-mutagenic active ingredient
Teratogenicity:	Did not show teratogenic effects in animal experiments.

Section 12: Ecological Information

No ecological or special considerations apply for use of normal pack sizes. Low mobility in the soil. Not considered environmentally harmful from normal dilution, expected usage and typical drainage to sewers, septic systems and treatment plants.

Section 13: Spillage and Disposal Considerations

Spillage:	Collect as per Section 6
Method of Disposal:	There are many pieces of legislation covering waste disposal and they differ in each state and territory, so each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. The hierarchy of controls seem to be common – the user should investigate: Reduces, Reuse, and Recycle and only if all else fails should disposal be considered. Note those properties of a product may change in use, so that the following suggestions may no always be appropriate.
Package Disposal:	Cardboard units are generally recyclable if the product has not been contaminated. Only if neither of these options is suitable should landfill be considered.

Section 14: Transport Information

ADG Code Classification: Not classified as a hazardous material or as a Dangerous good. No special transport conditions are necessary unless required by other regulations

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

Section 15: Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

Section 16: Other Information

This MSDS contains only safety-related information. For other data see product literature.

ACRONYMS:

ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail
AICS	Australian Inventory of Chemical Substances
ASCC	Office of the Australian Safety and Compensation Council
CAS Number	Chemical Abstract Service Registry Number
IARC	International Agency for Research on Cancer
NTP	National Toxicology Program (USA)
