

Section 1: Identification of Chemical, Product and Company

Address: Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220
Telephone: 07 5576 6388
Web/E-mail: www.belmacil.com or info@belmacil.com
Substance: Emulsifying Wax adhesive
Trade name: Elleebana Lash Lift Adhesive/Perming Glue
Product Use: Adhesive used when lifting lashes during the treatment
Creation Date: October 2014
Revision Date: October 2019

Section 2: Composition, Information on Ingredients

Pure Substance:

Ingredients I.N.C.I

Aqua

Polyvinyl Alcohol

Glycerin

Mixture:

Chemical Properties: Emulsifying Wax

Name of Hazard Substance: None

Concentrations (Percentage): None

Hazard Class and Label: None

Section 3: Potential Health Effects

Physical Description & Colour: clear gel

Odour: Slight

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects

Inhalation:

Short Term Exposure: Avoid overexposure to vapours

Long Term Exposure: Avoid overexposure to vapours

Skin Contact:

Short Term Exposure: Repeated exposure may cause skin irritation

Long Term Exposure: Repeated exposure may cause skin irritation

Eye Contact:

Short Term Exposure: May cause slight irritation

Long Term Exposure: May cause slight irritation

Ingestion:

Short Term Exposure: Do not ingest, may cause irritation

Long Term Exposure: Do not ingest, may cause irritation.

Carcinogen Status:

ASCC: No significant ingredient is classified as carcinogenic by ASCC.

NTP: No Significant ingredient is classified as carcinogenic by NTP.

IARC: No significant ingredient is classified as carcinogenic by IARC.

Section 4: First Air Measures

General Information:

Call The Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Please have this Material Safety Data Sheet on hand when you call.

Inhalation: If overexposure to vapours occur, remove to fresh air

Skin Contact: Wash with soap and water. Seek medical attention if serious irritation occurs.

Eye Contact: May cause abrasion and irritation, irrigate by abundant water and seek medical advice immediately if irritation occurs. Take special care if exposed person is wearing contact lenses.

Ingestion: Maybe harmful if swallowed If symptoms present or develop, or if in doubt contact a Poisons Information Centre or a doctor.

Section 5: Fire Fighting Measures

Appropriate type of extinguisher: Material is not combustible. Uses extinguish agents that are suitable to be surrounding fire. Carbon dioxide, dry chemical or alcohol resistant foam recommended. Apply water spray to cool exposed closed containers.

Potential Hazards During Fire Fighting: Material is not combustible. Fire or excessive heat may produce hazardous decomposition of products, which may intensify the fire, Thermal decomposition may produce oxides of carbon and nitrogen: explosive vapour.

Special Procedures for Fire Fighting: NIOSH-approved Self-Contained Breathing Apparatus (SCBA) and full protective equipment recommended.

Personal Protective Equipment: Full protective clothing

Section 6: Accidental Release Measures

Personal Precautions: Keep away from heat, sparks and flame. Ensure sufficient supply of air. Avoid inhalation and contact with eyes and skin. Secure possible sources of ignition.

Environmental Conglobations: For liquid products, collect using absorbent materials. Diluting with water is possible. Flush residue using copious water.

Disposal Procedures: Dispose at suitable refuse site according to local and national regulations materials, which cannot be recycled into your process, should be land filled in accordance with local environmental control regulations.

Section 7: Handling & Storage

Handling: Provide adequate ventilation in storage area. Keep away from sources of ignition. Do not smoke; keep away from heat, spark, flame and contamination. Keeping products away from eyes face and skin, keep container closed when not in use. Avoid contact with eyes and skin. Wash thoroughly after handling.

Storage: Keep product tightly closed away from heat and direct sunlight. Avoid extreme temperatures. Store away from food and beverages.

Section 8: Exposure Controls and Personal Protection

Engineering Control: Provide adequate ventilation

Control Index: Local exhaust is not required.

Personal Protective Equipment:

Hands: Water liquid proof rubber gloves. Thoroughly rinse the outside of the gloves with water prior to removal. Inspect regularly for leaks.

Eyes: Safety glasses. Water approved safety glasses with side shields.

Skin & Body: Wear chemical splash-type mono goggles (apron) if splashing is expected.

Hygiene Measures: Always handle and apply in a careful manner. Do not share with others, do not add anything to the product, Cap tightly after use to prevent moisture-entering product and maximise product self-life. If changes in product occur, discontinue use.

Section 9: Physical and Chemical Properties

Physical Description & colour:	Gel, with a colour that is according to specification. (#1 light pink, #2 light blue, #3 transparent and transparent adhesive)
Odour:	Slight
Boiling Point:	Approximately 90°C at 100kPa
Decomposition temp:	Approximately 50°C
Vapour Density:	No data
Density:	1.1
Water Solubility:	Approximately 50°C
pH:	5-9.2
VOC %:	0

Section 10: Stability and Reactivity

Stability: This product is stable compound under recommended storage conditions; Excessive heat could cause product changes and cannot be used.

Potential Hazards under special conditions: Hazardous polymerization will not occur.

Conditions to avoid: Avoid heat, dirt, organics and combustibles.

Incompatibilities with other materials: Avoid heating, open flames, ignition sources and electrostatic charge.

Minimum durability before opening: 6 months

Minimum durability after opening: 3 months

Section 11: Toxicological Information

Urgency of Toxicity: Base upon industry-wide experience over many years of manufacturing and published toxicological studies, the listed products in general are considered to have very low levels of toxicity, there is no evidence of harmful effects from available information.

Partial Effect: No adverse effects expected

Nature of Allergen: No adverse effects expected, slight irritation may occur

Lasting period of toxicity: Data not established for this product

Special effectiveness: Data not established for this product

Section 12: Ecological Information

The biodegradation of the product under aerobic conditions is expected to be poor and there is no evidence to suggest they create any significant ecological problems when released into environment.

Section 13: Spillage and Disposal Considerations

Spillage: Collect as per Section 6

Method of Disposal: There are many pieces of legislation covering waste disposal and they differ in each state and territory, so each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. The hierarchy of controls seem to be common – the user should investigate: Reduces, Reuse, and Recycle and only if all else fails should disposal be considered. Note those properties of a product may change in use, so that the following suggestions may no always be appropriate.

Package Disposal: Cardboard and Aluminium units are generally recyclable if the product has not been contaminated. Only if neither of these options is suitable should landfill be considered.

Section 14: Transport Information

ID Number: Not regulated

UN Number: Not regulated

DOT regulations: Not regulated

Special Handling Procedures and Precautions: Keep away from heat

Section 15: Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

Section 16: Other Information

This MSDS contains only safety-related information. For other data see product literature.

The information contained herein is accurate to the best of our knowledge. However, It is meant to describe safety requirements of our products, thus this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship. No warranty is expressed or made as to this document's accuracy, reliability or completeness. User has the sole responsibility to determine the suitability of the materials for any use and the manner of use contemplated.

Product name: Elleebana Lash Lifting Adhesive

Manufacturer's product code: 1361

UN-number: Not available

USE: Lifting of lashing when lash lifting or lash perming
