AvryBeauty®

PROFESSIONAL
JELLY SPA PEDICURE SET
A unique spa pedicure experience.

WHAT IS IT?

JELLY SPA PEDICURE BATH

- **FOOT CARE** – Relaxes tense muscles and soothes aching joints for a better circulation.
- **HEAT THERAPY** – Locks in heat of warm water much longer than normal foot bath.
- **AROMA THERAPY** – Give off strong aroma to help relax and enjoy the service.

The Jelly Spa Pedicure by Avry is truly a unique spa pedicure system designed to deliver deep relaxation with an aroma therapy twist. The festive season is the perfect time to introduce this innovative service, giving your salon the opportunity to upgrade your regular pedicure soak to a satisfying jelly pedicure.

SOOTHE ✓ EXFOLIATE ✓ RELAX ✓ FUN ✓

CLIENT BENEFITS:

Locks in the heat of warm water longer to relax tense muscles, nerves and promote better circulation!

SALON BENEFITS:

Offering a cost-effective premium service to upsell to your pedicure clients.
A unique spa experience which is indulging and relaxing.

Offer clients the choice of different scents and benefits and tailor the experience to how they are feeling on the day of their pedicure. A great interactive experience is to display 2-3 flavours in a bowl and let them select via touch and scent, create a flavour menu or feature a different pedicure scent every month!

UNIQUE SPA SERVICE

Add a new fun and indulging pedicure to your menu!

COST EFFECTIVE

Premium service to upsell your pedicures.

JELLY SPA PEDICURE PROTOCOL

STEP 1

Fill Spa or Bowl with warm water

STEP 2

Empty sachet Step No 1 Jelly Bath Powder and swirl with the water until a jelly-like consistency forms. If you are using a Spa DO NOT TURN JET OR WHIRLPOOL while the jelly is forming or during the jelly stage.

STEP 3

Immerse your client's feet gently into the warm, scented, translucent, fluffy and smooth jelly and let them soak for 15mins. (This time will offer your clients great benefits of aromatherapy and the warmth of the jelly. This first stage also gives them time to de-stress and relax! The Jelly will retain heat up to four times longer than just water and is great for sore muscles and circulation.

This is a great opportunity to offer your clients tea/coffee and refreshments while they are relaxing.

STEP 4

After 15mins, it's time to perform a gentle exfoliation on your client's feet and lower legs using the jelly.

Hint: If your client has rough calluses, use Avry Callus Remover Block - 80/100 Grit

STEP 5

Place sachet Step No 2 into the bowl or spa and add more water and swirl until jelly disappears and turns back to liquid form

JELLY SPA PEDICURE PROTOCOL

STEP 6

1. Unplug spa or discard water and rinse or wipe down client's feet and legs with a hot towel
2. Offer your client further beneficial add-on's such as Avry Shea Butter Moisturising Socks or gloves

STEP 7

Perform nail work and paint as normal. Don't forget to stock up on new season colours!

If your client has opted for Shea Butter Socks, perform nail work while the Shea socks hydrates and softens your client's feet.

If using lacquer or nail polish let your clients nails dry fully before removing socks, turn inside out to release remaining moisturiser left on socks and perform a lower leg and foot massage avoiding toes.

The Gel-Ohh jelly pedicures can be performed in a spa pedicure or pedicure bowl/tub.
