

HOT WAX COMPARISON CHART

All LYCON hot waxes have a very low temperature and can be reapplied on the same area 5-6 times, without discomfort or trauma to the skin. They remove hair as short as 1mm, with some a little stronger for extra stubborn and short hairs.

It is important to always recommend LYCON Pre and Post waxing lotions, as they provide great hygiene and extra waxing comfort, making LYCON hot waxing practically painless.

TRADITIONAL HOT WAX - TRANSPARENT GEL WAXES WITH AROMATHERAPY

Pliable, gentle and remove short stubborn hairs.

Olive Oil

Apricot

Aloe Vera

Azulene

Sunshine

TRADITIONAL HOT WAX - WITH TITANIUM DIOXIDE & AROMATHERAPY

More pliable, extra gentle, removes short and stubborn hairs, and soothes with Titanium Dioxide and Aromatherapy.

LYCOflex Vanilla

SoBerry

SoYummy

Rosette

TRADITIONAL HOT WAX - WITH MICRO MICA & AROMATHERAPY

More pliable with Micro Mica, extra gentle with aromatherapy, and removes short stubborn hairs.

MANifico Hot Wax

Active Gold

FILM + HYBRID HOT WAX - WITH TITANIUM DIOXIDE

LYCON Hybrid Hot waxes are extra pliable, strong and very gentle and soothing with Titanium Dioxide. They can be applied in large patches, set quickly and can be removed in one large patch.

LYCOTec White

LYCOTec Superberry

LYCODream

MANifico Hybrid

PINKINI Hybrid

LYCOTec film wax can be used thinly, does not crack on removal.

Blend of LYCON Traditional and LYCOTec formulas. Extra pliable, strong & gentle.

Blend of more Traditional and less LYCOTec wax formulas.

LYCOJET HOT WAX - WITH AROMATHERAPY

The Superhero, no tweeze wax formula, very gentle and can be used thinner than traditional hot wax.

LYCOjet Lavender

LYCOjet Eyebrow

LYCOjet Desert Rose
