

SAFETY DATA SHEET AFTER WAX LOTION TEA TREE

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER				
1.1. Product (material) name:	Soothing Tea Tree L	otion		
1.2. Other names:	Body Lotion			
1.3. Recommended use:	To moisturise and hydrate skin after waxing			
1.4. Supplier:	Caronlab Australia I	Pty Ltd		
1.5. Address:	148-150 Victoria St	reet, North Geelong, Victoria, 3215, Australia		
1.6. Phone:	(03) 5227 4999			
1.7. Fax:	(03) 5227 4950			
1.8. Email:	info@caronlab.com	n.au		
1.9. Emergency Contacts:	Poisons Information	n Centre (Australia) 13 11 26		
2. HAZARDS IDENTIFICATION				
2.1. Hazard classification:	Non-hazardous acc	ording to NOHSC criteria.		
2.2. Risk phrase(s):	Not applicable			
2.3. Safety phrase(s)	Not applicable			
3. INGREDIENTS				
Ingredients:	CAS number:	Concentration:		
Aqua	7732-18-5	>60%		
Macadamia Integrifolia Seed Oil	129811-19-4	10-30%		
Melaleuca Alternifolia Leaf Oil	68647-73-4	<10%		
Phenoxyethanol	122-99-6	<10%		
Methylparaben	99-76-3	<10%		
Ethylparaben	120-47-8	<10%		
Methyl Glucose Sesquisteartae	68936-95-8	<10%		
PEG-20 Methyl Glucose Sesquistearate	68389-70-8	<10%		
Cetearyl Alcohol	112-92-5 / 36653-82-4	<10%		
Benzyl Alcohol	100-51-6	<10%		
Carbomer	9007-20-9	<10%		
Tocopheryl Acetate	7695-91-2	<10%		
Disodium EDTA	139-33-3	<10%		
Propylparaben	94-13-3	<10%		
Allantoin	97-59-6	<10%		
	4. FIRST AID MEASURES

Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media:	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ait A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, designed and since the second	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame iry chemical powder, carbon dioxide		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products:	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ait A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, d May include and are not	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame ry chemical powder, carbon dioxide		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media:	Avoid contact with eyes immediately with plenty medical attention of irriverse product intended for us soap and water. Seek medical materials with the seek of the	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame try chemical powder, carbon dioxide limited to: Oxides of carbon full protective clothing including self		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters:	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ai t A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, d May include and are not Firefighters should wear contained breathing app	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame try chemical powder, carbon dioxide tilmited to: Oxides of carbon full protective clothing including self paratus.		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters:	Avoid contact with eyes immediately with plenty medical attention of irriverse product intended for us soap and water. Seek medical materials with the seek of the	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame try chemical powder, carbon dioxide tilmited to: Oxides of carbon full protective clothing including self paratus.		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters: 6 6.1. Personal precautions	Avoid contact with eyes immediately with plenty medical attention of irriverse product intended for us soap and water. Seek medical materials with the seek of the	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame lry chemical powder, carbon dioxide ilimited to: Oxides of carbon full protective clothing including self paratus.		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters:	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ai t A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, d May include and are not Firefighters should wear contained breathing app. 6. ACCIDENTAL RELEASE MEASUR None known Do not discharge into lat	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame ry chemical powder, carbon dioxide ilimited to: Oxides of carbon full protective clothing including self paratus.		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters: 6 6.1. Personal precautions	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ait A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, d May include and are not Firefighters should wear contained breathing app. 6. ACCIDENTAL RELEASE MEASURE None known Do not discharge into lai authorities if the productive soap water in the service of the productive in the service of the service	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame lry chemical powder, carbon dioxide ilimited to: Oxides of carbon full protective clothing including self paratus.		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters: 6 6.1. Personal precautions 6.2. Environmental precautions	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ai t A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, d May include and are not Firefighters should wear contained breathing app. ACCIDENTAL RELEASE MEASUR None known Do not discharge into lat authorities if the product pipes.	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame ry chemical powder, carbon dioxide ilimited to: Oxides of carbon full protective clothing including self paratus. EES kes, streams, ponds or public waters. Advise at has penetrated drains, sewers and water		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters: 6 6.1. Personal precautions	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ait A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, d May include and are not Firefighters should wear contained breathing app on the contained breathing appears. ACCIDENTAL RELEASE MEASURES None known Do not discharge into lai authorities if the product pipes. Dispose as solid waste a	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame ry chemical powder, carbon dioxide ilimited to: Oxides of carbon full protective clothing including self paratus.		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. Hazards from combustion products: 5.4. Protective equipment for firefighters: 6.1. Personal precautions 6.2. Environmental precautions 6.3. Methods for containment	Avoid contact with eyes immediately with plenty medical attention of irrit Product intended for us soap and water. Seek m Move person to fresh ait A source of clean water flushing eyes and skin. Treat symptomatically 5. FIRE FIGHTING MEASURES Not Flammable. Combustible. Slight fire Foam, water jet spray, d May include and are not Firefighters should wear contained breathing app. ACCIDENTAL RELEASE MEASUR None known Do not discharge into lai authorities if the product pipes. Dispose as solid waste a authorities.	r of water for at least 15 minutes. Seek tation occurs on skin. If irritation develops, wash off with edical advice for persistent irritation r. Get medical attention if irritation persists. should be available in the work area for hazard when exposed to heat of flame ry chemical powder, carbon dioxide ilimited to: Oxides of carbon full protective clothing including self paratus. EES kes, streams, ponds or public waters. Advise at has penetrated drains, sewers and water		
Skin: Inhalation: 4.2. Medical Attention And Special Treatment First Aid Facilities: Notes to physician 5.1. Flammable properties 5.2. Suitable extinguishing media: 5.3. SDS Tea Tree Lotion Date issued: 29/11/2017 Page 1 of 3

SAFETY DATA SHEET AFTER WAX LOTION TEA TREE

	Avoid contact with eyes.		
	Use good hygiene practices when handling this material		
	Use according to package label instructions		
7.2. Storage	Store below 30°C, dry place and in original container.		
7.2. Storage	Avoid storage under direct sunlight		
8. EXPOSURE CONTROLS/PERSONAL PROTECTION			
8.1. National exposure standards	None allocated		
8.2. Biological limit values	None allocated		
8.3. Engineering controls	Not required		
8.4. Personal protective equipment	Safety glasses may be used for eye protection.		
9. PHYSICAL AND CHEMICAL PROPERTIES			
9.1. Appearance:	Opaque white cream		
9.2. Odour:	Characteristic of tea tree		
9.3. pH:	5.5-6.5		
9.4. Vapour Pressure:	Not available		
9.5. Vapour density:	Not available		
9.6. Melting point	Approximately 0°C		
9.7. Solubility in water:	Soluble		
98. Specific gravity:	0.92 – 0.98 g/mL		
9.9. Flammable materials information:	<u> </u>		
Flash point and method of detecting flash point;	Not available		
upper and lower flammable (explosive) limits in	Not available		
air;			
and ignition temperature.	Not available		
9.10. Viscosity at room temperature:	Cream		
9.11. Percent volatile:	Not available		
10. STABILITY AND REACTIVITY			
10.1. Chemical Stability:	Product is stable under normal conditions of use, storage and		
	temperature		
10.2. Conditions to avoid:	Direct sunlight, warm conditions		
10.3. Incompatible materials:	Excess heat and direct sunlight		
10.4. Hazardous decomposition products:	N/A		
10.5. Hazardous reactions:	N/A		
11. TOXICOLOGICAL INFORMATION			
11.1. Toxicological data	Not available		
11.2. Effects of acute exposure:			
Eye contact:	No risk anticipated in normal use. May cause eye irritation in some		
	persons		
Skin contact:	No risk anticipated in normal use.		
Inhalation:	No risk anticipated in normal use		
Ingestion:	No risk anticipated in normal use		
11.2.2. Chronic	No long term effects are known.		
	COLOGICAL INFORMATION Not expected to be toxic		
12.1. Ecotoxicity:	Not expected to be toxic		
12.2. Persistence and degradability:	N/A		
12.4. Mobility in environmental media	N/A		
12.5. Environmental protection	Do not discharge product unmonitored into the environment or allow		
	contact with natural aquatic environments

SAFETY DATA SHEET AFTER WAX LOTION TEA TREE

13. DISPOSAL CONSIDERATIONS			
13.1. Disposal methods and containers: 14. TRANS	Dispose of in accordance with all applicable regulations. Containers should be emptied as completely as practical before disposal. If unsure about any form of disposal contact local Waste Disposal Authority. Please do not dispose into sewers or waterways. PORT INFORMATION		
14.1. UN Number:	Not applicable		
14.2. UN Proper Shipping Name:	Not applicable		
14.3. Class and subsidiary risk:	Not applicable		
14.4. Packing Group:	Not applicable		
15. REGULATORY INFORMATION			
15.1. Regulatory Status:	Australia Inventory of Chemical Substances (AICS)		
16. OTH	16. OTHER INFORMATION		
16.1. Document Information:	Document Issued 29.11.2017 Replaces January 2012		
16.2. Additional Information:	The information contained in this MSDS is, to the best of Caronlab Australia's knowledge and belief, accurate and reliable as of the date issued. The information is provided without any warranty, expressed or implied regarding its correctness or accuracy. Similarly, no warranty expressed or implied shall be created or inferred regarding the product described in this MSDS and Caronlab Australia Pty Ltd will not assume liability for any loss or damage arising out of the use of this information. It is the user's responsibility to satisfy itself that the product is suitable for its intended use.
