WARNINGS:

- Do not submerge in water.
- Do not mix old and new batteries.

PARTS INCLUDED:

SET UP:

1. Install 3 x 'AAA' batteries into the battery compartment.
2. Bend the arm to fit the rim of the toilet bowl. The arm and bulb go on the inside of the bowl. The set button and sensor go on the outside (Fig. 1). The sensor works best when facing the bathroom's entrance.
3. The light will only show in the dark. It is motion sensitive and will stay on for 2 minutes after detecting movement.
4. The light cycles through colors. Press the set button to have it stay on a desired color (Fig.2). Press again to have it cycle through.
