

Instruction Manual

MINI CAMPING STOVE

**PACKIN'
HEAT™**

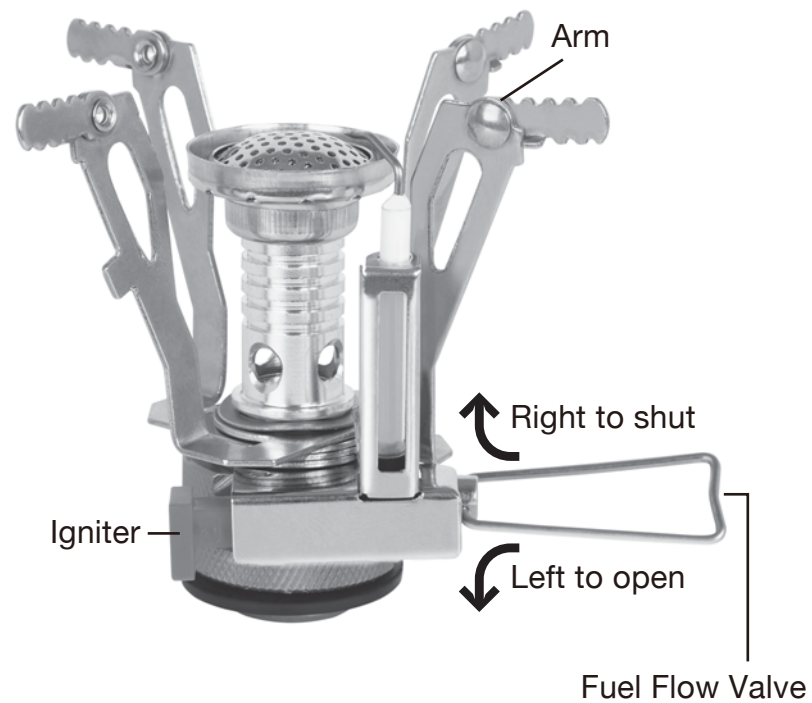

WARNINGS:

- This stove is designed for outdoor use only.
- If a fuel leak is detected, stop using the stove immediately and inspect it.
- Remove stove from the fuel canister when not in use.
- Store fuel away from heat sources and direct sunlight.
- Do not drop or puncture the fuel canister.
- Always follow general fire safety practices when using the stove.
- Use the stove only on a flat, level surface.

Read through this entire instruction manual BEFORE using **Packin' Heat**. We're dedicated to bringing you well-designed products that make living fun and easy. We stand behind all our products and warrant this to be free from defects in workmanship and materials.

PARTS:

SET UP:

*This stove is compatible with 7/16 single thread butane or butane-propane canisters.

- Pull the fuel flow valve down and pull the arms around the stove.
- Make sure the fuel flow valve is shut before screwing the stove onto the gas canister.
- Screw the stove onto the canister.
- Open the valve slightly by turning it to the left.
- Light the stove by pressing the igniter.
- Adjust the fuel flow to achieve desired flame.
- Place appropriate cookware on the arms and cook your meal.
- Shut off flame once done by turning the fuel flow valve all the way to the right.
- Unscrew the stove from the gas canister.
