

Abrasive Industrial Supplies
A Goodson Company

Abrasive Grains

J-Weight (light, flexible)
X-Weight (heavy, stiff)

Aluminum-Oxide

Excellent general purpose abrasive
Long life of cutting edge & points
Stock removal and polishing
Ferrous metals, aluminum & wood

Typical Applications

Backstand	Swingframe
Centerless/Cylindrical	Wide Belt/Flat Belt
Portable Belt Sanders	Disc Sanders
Stroke Sander	Edge Sanding

AOJ:	60	80	100	120	150	180	220
	240	320	400				

AOX:	36	40	50	60	80	100	120
	150	180	220	240	320	400	

Y-Weight (heavy, stiff)

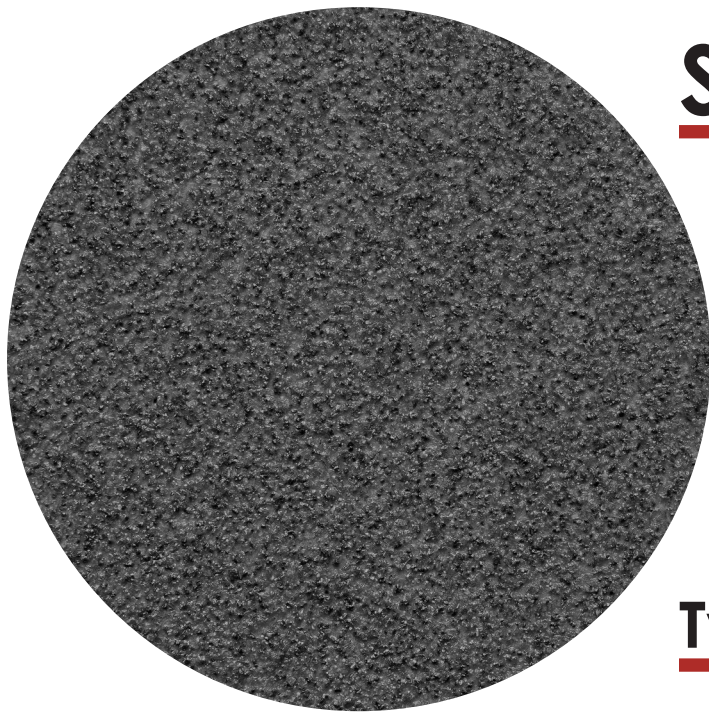

Ceramic-Alumina

High cut rates
Long service life
Ideal for ferrous metals, carbon steels, high nickel & other alloys

Typical Applications

Stock removal

	80	100	120
--	-----------	------------	------------

X-Weight (heavy, stiff)

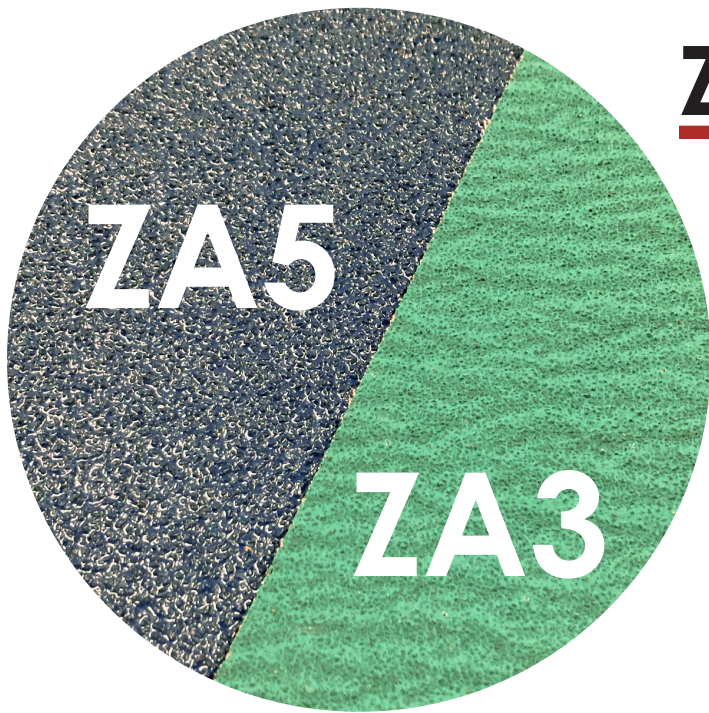

Silicon-Carbide

Sharpest and hardest abrasive
For cast iron, non-ferrous metals, non-metallic materials, stone, wood and stainless steel

Typical Applications

Fast stock removal

	40	60	80
--	-----------	-----------	-----------

Y-Weight
Without Lube (ZA5)
With Lube (ZA3)

Zirconia-Alumina

Ultra-tough synthetic abrasive
Tougher & sharper than Aluminum Oxide
For ferrous and non-ferrous metals, fiberglass, rubber & plastics

Typical Applications

Heavy duty snagging, sanding & grinding

Lube v. No Lube

Lube helps the belt work cooler, smoother

ZA3	36	40	60	80	100	120
------------	-----------	-----------	-----------	-----------	------------	------------

ZA5	40	60	80	100	120
------------	-----------	-----------	-----------	------------	------------

What size belt do you need?
Abrasive Industrial Supplies makes belts in-house
to YOUR specifications
