

# LIVELY CBD + SUPERGREENS CERTIFICATE OF ANALYSIS

LOT NUMBER:  
0120-019

SAMPLE DATE: 02/14/20  
BY INFINITE CHEMICAL ANALYSIS LABS

## Transparency Matters.

At Lively, we hold ourselves to the highest standards through third-party testing. Lab results can be difficult to understand, so we present them here in an easy-to-read format with information on each test we perform. We strive for transparency so you'll never have to wonder about the quality of our products.

### HOW TO READ YOUR RESULTS:

- CANNABINOID PROFILE + POTENCY**

We test our products for their full cannabinoid profile. Hemp extracts can vary in terms of potency, and it's important to know exactly what you're getting. Our 3rd party testing ensures you get the CBD content you expect.

- TERPENES**

Terpenes are natural oils, and depending on the strain of hemp, the terpene profile varies. Terpenes have potential therapeutic capabilities, so it's good to know which ones are present in the product you ingest.

- PESTICIDES**

Our hemp is grown in organic soil, and we make sure that there are no pesticides present in our products.

- MICROBIOLOGY SCREENING**

We test for harmful contaminants to ensure the safety and purity of our products.

- RESIDUAL SOLVENTS**

Solvents are chemicals oftentimes used during the extraction of cannabinoids and terpenes. Our extraction process is solvent-free, which we confirm through testing.

### UNITS OF MEASURE:

- cfu/g = Colony forming units per gram
- g = Gram
- ND = Non-detectable
- % = Percentage of sample

### Total CBD Per Serving

26.44mg / serving\*

### CANNABINOID POTENCY PROFILE

	RESULT	UNITS
Cannabidiol (CBD)	3.33	mg/g
Cannabichromene (CBC)	0.188	mg/g
Cannabidivarin (CBDV)	0.024	mg/g
Cannabigerol (CBG)	0.081	mg/g
Cannabicyclol (CBL)	ND	mg/g
Cannabinol (CBN)	ND	mg/g
Delta-9-Tetrahydrocannabinol (THC)**	0.03%	

\*\*This product contains less than 0.03% THC, making it Farm Bill Compliant (0.3% THC limit)

### TERPENES

	RESULT	% OF TOTAL
ND		

### PESTICIDES

	RESULT
Multi-Residue Pesticide Profile (all analytes)	<LOQ†

### MICROBIOLOGY SCREENING

	RESULT
APC	PASS
Yeast + Mold	PASS
Coliforms	PASS
E.Coli	Absent
Salmonella	Absent
Staphylococcus aureus	Absent

### RESIDUAL SOLVENT TEST

	RESULT
Solvents (all analytes)	<LOQ†

\* 1 serving: 7.939 g

† Limit(s) of Quantitation (LOQ): The minimum levels, concentrations, or quantities of a target variable (e.g., target analyte) that can be reported with a specified degree of confidence.

# LIVELY CBD + COLLAGEN CERTIFICATE OF ANALYSIS
