

STYLE# 3117FR

ARC & FLAME RESISTANT **'KIRBY' COOL POLO**

6.2 OZ. | BENCHMARK FR COTTON JERSEY

It's not easy to make something light weight, flame resistant and cool. Instead of making a typical polo, we tastefully reinvented it and streamlined the design. The detail is in the collar and front placket which have a hybrid construction of both knit and contrast woven materials. Overall, the Kirby polo is well constructed and cool. Benchmark FR makes this shirt exclusively in the USA.

COMPLIANCE

ARC Rating (ATPV) = 8.9 cal/cm²
NFPA 70E
HRC/ARC Level 2
Meets ASTM F1506
NFPA 2112
