

SPÈ CANDLE

CANDLE CARE

SPÈ Candles are made from organic soy, pure essential oils and toxin free fragrances. Soy wax is a natural renewable and is carbon neutral, making it an eco friendly product. Soy wax is superior because it provides a longer and cleaner burn with a good scent throw.

Soy wax is a natural material which can occasionally result in occasional surface frosting or appearance inconsistencies. This is completely normal process with natural soy wax and oils. Any appearance of frosting will not affect your scent or burning.

CANDLE USE

- We recommend for your first use that you allow the Candle to burn 2-3 hours or until the wax melts evenly across the container. This will help to avoid a tunnel forming in the centre of the Candle.
- Always wick to 1/4" after each use and clear any debris from wax.
- If smoking occurs, blow candle out. Trim wick(s), remove trimmings, and relight.
- Keep the wax pool free of wick trimmings, matches, or any combustible material. Keep the wick centered.

CANDLE SAFETY

- Never leave a Candle unattended and keep far away from anything flammable.
- Avoid burning in drafts or near curtains.
- Only burn a candle on a fire/flame resistant surface.
- Never leave a candle within reach of children and pets.
- Do not move a Candle while burning or until completely cooled down.
- Do not burn Candle below final centimetre of wax.
- Do not burn candles for more than 4 hour period at a time.
- Keep all matches and lighters out of the reach of children.
- Teach everyone in the family the rules of safe candle use.

CANDLE STORAGE

- The candle wax and oils are sensitive to temperature and light, so please be careful when storing candles for an extended period of time there for stir candles in boxes a cool dark space.
- Storage and shipping temperatures 15C- 23C / 60F - 75F
- Extreme cold causes cracking and separation, so do not leave in cold vehicles for long periods.
- After long exposure to the cold, you should allow the candle to return to room temperature for a minimum of 2 hours before burning it to minimise potential damage

REUSE CONTAINERS

Once your candle is finished wash out with hot soapy water. The jars make pretty storage for bathrooms and kitchens. You can also pop in a tea light and continue to enjoy the amber glow from our apothecary jars.
