## NEEDED FOR INSTALLATION

- 5/32 Hex Allen Driver/T-handle
- Blue Loctite
- Gasket (most of the time)

## INSTALLATION

NOTE: Use blue Loctite on hardware

NOTE: New gasket recommended on every install

1. Try to level motorcycle. There's oil behind the derby cover.
2. Place oil catch pan under motorcycle. If bike is level oil shouldn't spill out.
3. Remove stock cover and gasket. 2007-up models will need a new gasket.
4. Install derby cover and gasket with (5) button head screws.
