INTRODUCTION

Introducing your new Everyday Headphones Pro — an audio companion as strong as you are.

At Raycon, we believe in creating innovative tech designed to embrace and empower your every day. We've teamed up with expert engineers, leading taste-makers, and platinum artists to design wireless audio you'll love to use and every day tech that can take whatever life throws your way. We believe in the early risers and the one-more-milers of the world. Premium audio, inspired by you.

To get the most out of your Everyday Headphones Pro, we strongly encourage you to fully read through this user guide. You can also visit our support center at www.rayconglobal.com/support. This web page has more specific guidelines and helpful videos for you to navigate your product. For best performance, charge fully before first use.

FEATURES AT A GLANCE

IMMERSIVE NOISE CONTROL **Hybrid ANC & Awareness Mode**

- Dive into audio excellence with our most advanced noise cancellation yet: Hybrid ANC offers superior noise isolation and enhanced Awareness mode allows for amplified ambient sounds. Tailor your auditory experience to perfection, enjoying a seamless blend of immersive audio and environmental awareness in any setting.

UNSTOPPABLE ENERGY **60 Hours of Battery Life**

- The Everyday Headphones Pro redefine endurance with a remarkable 60-hour playback (ANC off). Activate the immersive Hybrid ANC, and experience an impressive 48 hours of uninterrupted audio pleasure. Whether on an extended journey or maneuvering through a bustling day, these headphones ensure a seamless and enduring audio experience tailored to your needs.

CRYSTAL CLEAR COMMUNICATION **Six High-Performance Microphones**

- Immerse yourself in pristine audio communication with Everyday Headphones Pro, featuring a cutting-edge configuration of six high-performance microphones. Whether you're making calls, participating in virtual meetings, or engaging in voice commands, these headphones are designed to elevate your communication experience, ensuring crystal clear sound quality in any environment.

VERSATILE CONNECTIVITY **Multipoint Technology**

- Enhance your connectivity experience with headphones equipped with Multipoint Technology. Seamlessly connect to both your laptop and phone simultaneously, ensuring you stay connected and productive without missing crucial calls or emails. Enjoy the flexibility to effortlessly switch between devices, providing a seamless transition between work and leisure, all while enjoying your favorite audio content.

Tap once to toggle between Noise Cancellation and Awareness Mode

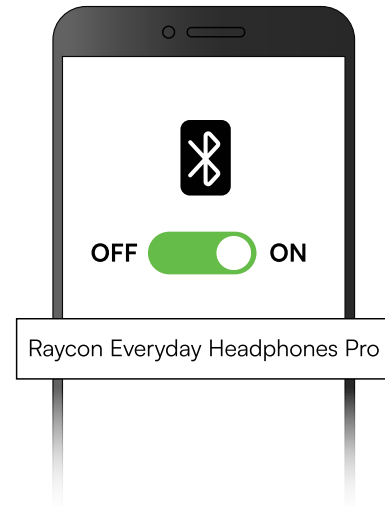

- 🎧 Hybrid Active Noise Cancellation (ANC): Uninterrupted focus by blocking out unwanted noise
- 👂 Awareness Mode: Enhance and stay connected to the world around you by amplifying external noise.

USING YOUR HEADPHONES

CONNECTING VIA BLUETOOTH

1. Hold “⏻” for 3 seconds to power on. Headphones will enter pairing mode automatically.
2. From the source device, go to Bluetooth settings and ensure Bluetooth is on. Search for “Raycon Everyday Headphones Pro” and select it to pair.

3. To re-enter pairing mode, either press and hold the power button during startup until the prompt is heard, or simultaneously press and hold Volume Up and Down for 5 seconds until the device powers down, disconnecting from any connected device(s).

CHARGING YOUR DEVICE ---

1. Plug the USB-C connector in the charging port, located on the left side.

2. When charging, the LED below the charging port will begin to glow red, indicating the Headphones are currently charging.

3. When fully charged, the charge LED will turn blue - your headphones are ready to go!
The complete charging time is approximately 2 hours.

Note: The headphones will not be able to play while charging.

LED STATUS

CHARGING LED - LEFT SIDE

LED INDICATION	STATUS	MEANING
●	Solid Red LED	Headphones are charging
●	Solid Blue LED	Headphones are fully charged

PAIRING LED - RIGHT SIDE

LED INDICATION	STATUS	MEANING
☀ ☀	Alternating Blue and Red Lights	Headphones are in Pairing Mode
●	Solid Blue LED	Headphones are connected
☀	Blinking Red LED	Headphones are low in power

ADVANCED FEATURES ---

MULTIPOINT

WHAT IS MULTIPOINT?

Multipoint allows you to connect your headphones to up to two devices simultaneously, such as your smartphone, laptop, or tablet - the combinations are endless! This means you can easily switch between devices without having to disconnect and reconnect each time. Once you have paired your Everyday Headphones Pro with both devices, they will automatically switch to whichever device is playing audio. With Multipoint, you can connect your headphones to both your phone and your laptop, allowing you to easily switch between your workout playlist and work calls without any interruptions.

HOW DO YOU SET-UP MULTIPOINT?

To use this feature, make sure both devices are within the Bluetooth range and have Bluetooth enabled.

1. Pair the headphones with your first device (e.g. your smartphone).
2. Disconnect the headphones from your first device using the Bluetooth settings on the device. The headphones will re-enter Pairing Mode.
3. Pair the headphones with your second device (e.g. your laptop) via its Bluetooth settings.
4. The headphones will now be able to connect to both of your devices when turned back on.

TROUBLESHOOTING / FAQ ---

HEADPHONES WON'T POWER ON?

- Check that the battery is fully charged - the LED near the charging port will glow red indicating the headphones are charging

HEADPHONES WILL NOT CHARGE?

- Ensure you are using the correct cable - to avoid issues, use the provided cable to charge your Everyday Headphones Pro.
- Verify that the power source is sufficient (wall charger is preferred).

HEADPHONES HAVE NO SOUND WHEN CONNECTED TO A DEVICE(S)?

- Ensure the headphones is within 10 meters (33 feet) of the connected Bluetooth device.
- Check the battery level: If the battery level of either the headphones or your connected device is low, it can cause the connection to be weak or to drop.
- Reconnect your headphones by either turning them off and turning them back on or forgetting the Everyday Headphones Pro from your device and re-pair.

HEADPHONES HAVE NO SOUND WHEN CONNECTED BY 3.5MM AUDIO AUX CABLE?

- Check the volume level of the connected device, the music source, and the headphones.
- Ensure that the line connecting the device and the headphones is intact and securely connected.

MULTIPOINT IS NOT WORKING?

- Confirm headphones are charged and that they are disconnected from any Bluetooth device.
- Confirm headphones are in pairing mode and reconnect devices to Bluetooth.

HOW DO I CLEAN THE EAR CUSHIONS?

- Remove the Ear Cushions from the headphones before cleaning - do not wash/clean while they are on the headphones.
- PU Leather Cushions: Hand wash only with soapy water / damp cloths, and avoid using harsh chemicals
- Do not allow moisture to get inside the earcups.

SAFETY & WARRANTY _____

SAFETY GUIDELINES

- Be wary of any edges, uneven surfaces, and metal parts, including on accessories and product packaging, to prevent any possible injury or damage.
- Listen to music at a proper volume to avoid damaging your hearing and headphones.
- Do not store in high temperatures, such as in a hot vehicle or in direct sunlight.
- Do not expose the headphones or any of its supplied parts to rain or other liquids for extended periods of time.
- Do not drop or cause undue impact to the headphones.
- Do not modify, repair, or dismantle the product on your own.
- Do not use any diluent or volatile liquid to clean the product.
- Do not use the product in a hazardous location.

Power Input: DC 5V/A
Li-Battery Capability: 600mAh
Bluetooth Playtime: 60 hours
Charging Time: About 2 hours
Support Profile: A2DP /AVRCP/HFP/HSP
Frequency Response: 20Hz-20KHz
Bluetooth Operating Range: ≤ 10 m

COMPLIANCE & REGULATORY INFORMATION _____

FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- The device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Those limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit on a circuit different from that to which the receiver is connected.
- Consult the dealer on an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure statements. The device can be used in portable exposure conduction without restriction.

IC WARNING

This device contains license-exempt transmitter(s)/receiver(s) that complies with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

RF EXPOSURE STATEMENT:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
