THE BEST OF BOTH WORLDS

The stovetop compatibility of the FlowTip Jug makes it ideal for the home barista and the custom spout is designed to make learning latte art easier.

Also perfect for the professional barista with the ergonomic handle, making it comfortable for all day use without feeling the heat of the steam wand.

Specifications

- 450ml Capacity (15Oz)
- Ergonomic & heat resistant handle
- Stovetop compatible
- Custom smooth neck
- Custom pouring spout
- Cleaning brush included
- FDA and CE compliant
- Stainless steel or black teflon colors

STOVETOP COMPATIBLE

Compatible with all stovetop types. Note that an induction diffuser may be required if the induction stove cannot detect such a small pot. A diffuser may also be necessary for stability on a gas stove.
