

AQUALITE SOLAR POWERED LANTERN & BASIC EMERGENCY KIT

FEATURES

- Solar Powered Dimmable Lantern
- SOS and Strobe Light Built-in
- Collapsable Silicone Rubber Body
- Built-in USB Smartphone Charger
- Flint & steel fire starter
- Emergency whistle
- Carabineer
- 2 alcohol pads
- 2 Sting relief pads
- 5 adhesive bandages
- 1 water bottle
- 1 water purification straw

ITS GOT THE BAT SIGNAL

Use on a nightly basis as a lantern to light the campsite. Get stuck in a ravine? Click the button a couple more times and the bright LED light turns into SOS mode to signal for help.

WORKS WHILE YOU PLAY

Clip the Aqualite onto your backpack with the included caribine or stash it next to the tent and the Solar panel will soak up juice all day long ensuring you have light deep into the night.

GIVES AS MUCH AS IT TAKES

The built-in 2000mAh battery stores charge from the sun or fills up via the included USB cable. Phone battery running low? No problem, just plug your phone into the cap and voila charge up and get back on the go.

AS PRETTY ON THE INSIDE AS IT IS ON THE OUTSIDE

The silicone bottle contains the essentials needed for a long hike or an unexpected emergency. Need a tall drink of fresh water? Break out the water purification straw and clean up nearly any water source. Scrape your knee? Grab an alcohol wipe, clean it up and place a bandage on it and keep on the go.
