Loud Alarm

ALWAYS ON ALERT

Carbon Monoxide (CO) gas is odorless, colorless and toxic. This is why you need a super reliable CO & Natural Gas detector to keep you safe in your home and office. The Blackout Buddy CO & Natural Gas is ETL Certified to UL2034 CO standards and UL1484 standards for Natural Gas (Methane) detection. If dangerous conditions are detected the BB Connect CO & Gas will blast and alarm and send you a push notification to your phone, no matter where you may be.

EMPOWERED BY NATURE

EXPLOSION FREE ZONE

Natural Gas may smell like rotten eggs but one small spark can create a huge disaster. The Blackout Buddy CO & Natural Gas' combustible gas sensor will send an alarm to the cloud to notify you and the authorities of a gas leak while you are away. If you are home you will be put on loud an clear notice that it is time to get out.

PLUG IT IN AND FORGET IT

Just leave the slim and trim Blackout Buddy CO & Natural Gas in your wall socket and you'll never be in the dark. We suggest plugging it into a low wall socket because that's the ideal position for CO and gas detection.

INSTANT NOTIFICATIONS

The network-connected CO & Natural Gas sensor takes advantage of Amazon Alexa and Google Home's easy to use, secure backbone to stand watch over your home while you're away and notify you of anything out of the ordinary, providing peace of mind.

FEATURES

• WiFi connectivity via Amazon Alex and Google Home

• Digital display shows PPM level of CO or "GAS" when alarming

• 2-in-1 alarm that provides double the protection with a single installation to protect against Carbon Monoxide and natural gas
