

# ELITE EXECUTIVE

## NOW HEAR THIS

The Elite Executive receives every radio wavelength –AM(MW), FM, LW, and Shortwave (SW)–at home or abroad. Plus, it receives VHF aircraft band, Single Sideband (SSB) and includes a PLL tuner so your AM signal is strong and clear. If Digital Radio is more your style, tune into HD Radio in North America or DAB+ internationally.

## RDS READY

The Elite Executive radio features RDS for FM so you can see the station's call letters, style of music, song title, artist and more.

## IN SYNC...AND SENSITIVE

The Executive's Sync Detector improves the radios sound quality by lowering distortion and fading. And it's way sensitive so it can pick up weaker signals.

## LISTEN IN

Want to shut out the world? Just plug in headphones and tune out. Tired of radio? Connect any audio device using the line input and listen to your favorite playlist.
