NOW BROADCASTING
Ready and tested the **Elite Field BT** receives most every radio wavelength—AM (MW), FM, and Shortwave (SW)—at home or abroad. It’s easy to set the station spacing and frequency so your stations come in loud and clear wherever you are. And with Bluetooth® you can stream your own music or favorite podcast. If Digital Radio is more your style, tune into HD Radio in North America or DAB+ internationally.

LISTEN UP
With high sensitivity, strong anti-interference, low background noise, and even lower distortion, listening on the Elite Field BT is a real pleasure. Plus, its wide/narrow bandwidth selection improves audio fidelity and minimizes noise. Listen out loud or plug in your favorite headphones.

FYI, IT’S GOT RDS
The Elite Field BT radio features RDS for FM. RDS stands for Radio Data System and it enables FM broadcasters to deliver more than just an analog audio signal, but also to transmit digital data, like the station’s call letters, style of music, song title, artist and more.
Meet the Elite Family of Shortwave Radios

WAKE UP
With local and world time settings, radio and buzzer alarm clock settings, sleep timer and snooze light, the Elite Field BT keeps you in time…in any time zone. And if you want to prevent the radio or alarm from turning on all together, just hit Lock.

UP TO SPEED
When it comes to tuning in to your favorite frequency, you can take it fast...or slow. The dial-in-dial tuning knob lets you select your speed—fast, slow or stop to keep it in a locked position.

FIELD BT READY
The Elite Field BT radio includes a built-in hand strap for carrying your radio with ease.

GET POWERED UP
Use 4 D batteries (not included) or plug in the supplied AC adapter into the DC jack for full power. The battery strength indicator on the display will let you know when it’s time for a change.

SHORTWAVE BANDS
AM 520 – 1710 kHz
FM 87.5 – 108 MHz
SW 1.711 – 29.999 MHz

DIGITAL OPTIONS
DAB+ Internationally

FEATURES
• AM/FM/SW bands
• Digital HD Radio in North America
• DAB+ Internationally
• FM with RDS (Radio Data System)
• Dial-in-dial coarse/ fine digital tuning
• Treble/bass control
• RF gain control
