

Ava - Vertical Layout

Lap size

You will need full pattern to finish, available in printed and pdf format

Adjustments

Steps 1-7: Make 8 A blocks and 10 B blocks.

Step 8: Arrange the blocks into vertical rows along with the 2 sizes of background rectangles. You will only use 4 large rectangles but you will need a total of 13 smaller rectangles (cut them from the extra large ones if you already cut them). Sew the blocks into rows.

Step 9: Measure and cut 6 sashing/side border strips. Sew the rows together. Finish with top and bottom borders.
