

JoJo with the Lakeside Story Panels

I bordered the small panel images so they would be the same size as the blocks and bordered the large panel images to be the size of 4 blocks.

I made the lap size quilt, made 2 large panel blocks and 4 small panel blocks. You will need 36, 10" squares for the other blocks and a fat quarter or two for the borders around the panels in addition to the panel print.

Trim the smaller images to a 6" square.
For the border around the image: cut Two 2" x 6" rectangles and Two 2" x 9" rectangles.

Trim the larger images to a 13-1/2" square.
For the border around the image: cut Two 2-1/2" x 13-1/2" rectangles and Two 2-1/2" x 17-1/2" rectangles.
