

# KATHY REID CERTIFIED STRIPOLOGY® INSTRUCTOR

## CONTACT ME

kreidquiltingteacher@gmail.com

My hometown: Saskatoon, SK Canada 🍁

### CLASSES I OFFER UTILIZING THE FAMILY OF STRIPOLOGY® RULERS

#### INGA QUILT CLASS

Beginner (6 hours):

While creating this amazing quilt you will learn the tips and tricks of using your rulers while piecing your quilt blocks.

#### NOVA QUILT CLASS

Confident Beginner (6 hours):

Learn the basics of the blocks for this amazing quilt and see how fast you accomplish this dynamic quilt.

#### STRIP RIBBONS QUILT CLASS

Confident Beginner (6 hours): Learn the best way to finish this quilt quickly using your rulers and your color inspiration while enjoying every step of the way to this gorgeous finished piece.

#### HOPE QUILT CLASS

Beginner (6 hours): Learn the tips to making this quilt with accuracy and saving time and fabric while using your Stripology rulers to their full potential.

## MY EXPERIENCE

I have been immersed in the quilting world since 2000 having completed over 525 quilts. After discovering GE Designs in 2004, I have sewn over 100+ GE Design pattern quilts using 75+ different GE Design patterns.

In 2023 I obtained my certification as part of the inaugural Stripology® Certification Course.

#### MASTERING YOUR STRIPOLOGY® RULERS CLASS

Confident Beginner (6 hours): You will learn how to get the most from your rulers, while learning to reduce your fabric cutting time, increase cutting accuracy, and ensure less fabric waste. Learn to cut perfect strips, squares, rectangles, triangles and parallelograms. Your rulers will save you time and teach you the fool proof Stripologizing methods for basic quilting units like hst's and qst's. In addition to learning about all four rulers, you will master the GEasy method for making flying geese and start practicing your newly acquired skills by making blocks for the Back Home table topper (28"x28") from your Master Your Stripology Rulers book.

## WHY I LOVE TO TEACH?

After teaching grades K-8 for over 30 years, I began teaching beginner quilting classes in 2015 where I found my love for teaching the art of quilting. I felt the pull of satisfaction each time my students completed their projects and learned a new skill to further their journey in this world of needle and thread.

I continued teaching throughout the pandemic utilizing the virtual world and supporting learners through online classes.

I have taught at various guilds, quilt shops and sewing groups and find it very rewarding to watch students of all ages master a new technique. I am excited to come to your group and inspire your stitching journey.
