1926 AT' SEA

INTRODUCTION

To name each model, we looked back in time to find important moments in the history of horology to acknowledge those milestones

Mankind have been exploring the underwater world for centuries, and 1926 was a game changing year for all sea explorers. Made with a hermetically sealed case for optimal protection the first waterproof wristwatch marked a major step forward - making timekeeping underwater an everyman luxury.

Our first diver is a humble celebration of that remarkable achievement. We hope that our 1926 At'sea will take you on your very own adventure, both below and above the big blue ocean.

For us, Vintage is not just a reference of style - it is the journey to becoming it.

The journey (life) will take you through eventfull moments and memorable days to occasions that change your whole perspective.

We hope that one day your About Vintage watch will help you bring back memories of the special times in your life.

INTRODUCTION

Congratulations on your new About Vintage timepiece. This is now yours to carry. We hope you enjoy it as much as we loved making it.
