

NEW!

Absolutely neutral frequency response
for faithful music playback.

Can be positioned on a surface or
installed in a rack thanks to the
supplied bracket.

AMP 4200

Powerful matrix amplifier

The AMP 4200 is a flexible 4-channel Class D amplifier for 4 speaker zones (4-8 Ohm/70V/100V) with 200 Watt output power per zone.

The device can be configured and operated intuitively using a clear web interface. In addition to DSP presets (detailed sound settings), equalizer functions can also be freely configured for each zone. The device also has a power-saving function – it automatically switches to stand-by mode when no music is playing.

The AMP 4200 is suitable for 19" installation or as a floor-standing unit.

Features:

- ✓ 4×200 W on only one height unit
- ✓ DSP integrated
- ✓ Control4-enabled
- ✓ TCP/IP interface
- ✓ Low power usage thanks to excellent efficiency and automatic energy-saving mode

Suitable for:

- Restaurants
- Doctor's offices
- Shops
- Hotels
- Residential homes and villas

incorrect operation, service
operations

Technical data:

Operating voltage: 115V AC / 230V AC
 Audio inputs: 4 × line-In (mono) or 2 × line-In (stereo)
 Audio outputs: 4 zones (either 4-8 Ohm, 70V or 100V)
 Additional connections/interfaces:
 Network interface (RJ45) for configuration
 Dimensions (mm): 430 × 60 × 320 mm
 Material: Housing: metal
 Color: black
 Accessories: optional IR 19 audio source

WHD Extra

On request, we can program custom DSP settings for WHD speakers at a fixed price and deliver the AMP 4200 with these already on.
