

# Bring on the barbecue – the music is already playing!

Imagine if the music playing in your house could simply carry on outside in the garden, filling the entire outdoor space with music. Whether you're doing some gardening or having a barbecue, you can enjoy some atmospheric music with ease!

**NEW!**

Many systems now with  
DSP for even better sound  
in the garden!

# How does it sound outside?

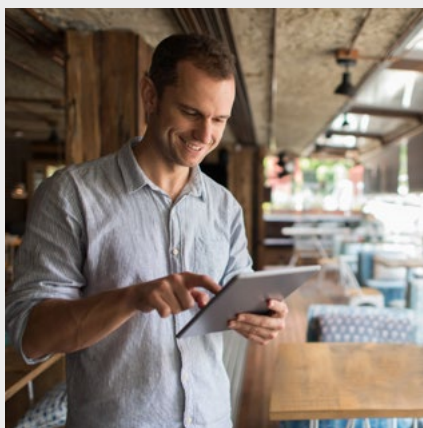

Got the barbecue going, but still missing that perfect sound? Having a dinner under the stars, but the music falls flat? When it comes to the perfect outdoor sound, simply turning up the music in the house or carrying around mobile speakers just doesn't cut it.

Do it like the pros instead: Hotels, restaurants and resorts use installed outdoor systems all year round, which not only provide sound but also the right atmospheric lighting. Perfect and simple – just the thing for your garden!

## 1. Simple

Our garden speakers are weather-resistant, always available and do not require a battery. Thanks to their "ball-proof" construction, they are robust and can even withstand snow and hail – something we were able to really put to the test during development in the Black Forest in Germany.

## 2. Integrated

Weatherproof garden speakers from WHD can be easily integrated outdoors and connected to a larger playing area if required. Extend your multi-room concept with a "Garden" zone and even add a bit of ambiance to your green oasis thanks to the lighting capabilities.

## 3. Dynamic

Thanks to the DSP and cleverly designed products for outdoor use, you can enjoy optimal sound, whatever the occasion and whatever the volume: for relaxing, swimming in the pool while working. You and your guests will be captivated by the refreshing sound!

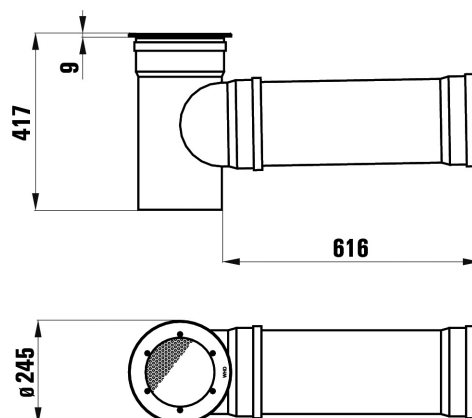

# IG 220

Built-in floor speaker for playing music outside, can be walked on

The IG 220 is ideal for gardens, open-air dining, leisure parks and terraces. The housing is buried or concreted flush into the ground. The speaker unit is then inserted and the mounting ring with the hard-wearing perforated plate screwed on. The weatherproof 2-way coaxial chassis is built into the ground at a 90° angle.

Fully recessed in the ground – robust enough to walk on. A special sound channeling system reflects the sound upwards. Water and dirt can seep into the ground through the reflector. Connection to drainage is required.

# IG 340

## IG 340 built-in floor speaker – with LED ambient lighting

Built-in floor speaker with LED orientation lighting (230 V) for playing music outside. The housing is buried or concreted flush into the ground. The speaker unit is then inserted in the housing and the mounting ring with the hard-wearing perforated plate screwed on.

The broadband speaker, which is built in at a 180° angle, reflects the sound upwards. Water and dirt can seep into the ground through the reflector. Connection to drainage is required. For the terrace at home or in leisure parks and beer gardens.

# R 1900 WPL DSP

360° omnidirectional speaker with  
**Bluetooth/Wi-Fi receiver** and DSP –  
sound and light

Orchestrate the perfect ambiance thanks to light and sound. The 2-way omnidirectional speaker with light is ideal for playing music indoors and out, for example at leisure parks, in gardens or on terraces in hotels or for domestic use, outdoor pools, beer gardens, ...

The ball light creates a suitable mood. The two integral lights (230 V) ensure the ball is evenly illuminated. The speaker is mounted on a plate that can be screwed to the floor and thus provides anti-theft protection.

# SL 25/2 DSP

Rock speaker with **Bluetooth/Wi-Fi receiver** and DSP,  
granite gray, weatherproof

Spring time is garden time. When the sun is shining, all you want to do is relax in the garden or have a barbecue with your friends. What if you could enjoy your favorite music in brilliant sound quality, too?

The SL 25 granite-gray rock speaker from WHD does it all: any weather, any stream, any music, thanks to the Bluetooth/Wi-Fi receiver in the external, weatherproof housing.

Enjoy your favorite music from your smartphone, MP3 player or tablet, Internet radio or online music service with rich sound in the garden or on the terrace. Directly to the garden – no cables required.

# GL 100 DSP

2-way garden speaker with **Bluetooth/Wi-Fi receiver**,  
DSP, 2 × 50W; 360° sound emission, gray

Streaming garden speaker for perfect all-round sound. Incorporate the GL 100 and its hand-crafted gray housing in your garden, connect the Bluetooth/Wi-Fi receiver in the external housing to an outer socket and enjoy perfect 360° sound with deep bass.

Whether chilling in a hammock or celebrating with friends: The GL 100 concrete gray garden speaker from WHD does it all.

The GL 100 concrete gray garden speaker from WHD does it all: any weather, any music, any mood.

Whilst all-round sound coming from a speaker in the living room is often reflected by walls, ceilings and floors, outside, the sound can unfold perfectly. Enjoy rich bass at an outdoor screening or at your next garden party!

● ● ● Made in Germany

## Tropical Islands

At Europe's largest tropical holiday world, the sound of the rainforest can be heard coming from over 80 rock speakers from WHD. The climate-resilient SL 25/2 speakers with 100V technology ensure an atmospheric welcome among sandy beaches and palm trees, right in the heart of Brandenburg in Germany!

→ [www.tropical-islands.de](http://www.tropical-islands.de)

“Do as they do in hotels, restaurants and spa resorts: Create the perfect ambiance in your own garden! With a sound that doesn't detract from you and your guests, but enthralls you instead.”

Gordon Herzner,  
WHD project planner  
<http://planner.whd.de>

## Belantis

In the outdoor area of this adventure park near Leipzig, Germany, 156 sturdy rock speakers create the perfect background sound at all times. The 100V technology can easily han-

dle long cable lengths, and allows for several speakers to be connected to just a few amplifiers.

→ [www.belantis.de](http://www.belantis.de)

## Gardaland

The colorful amusement park on the northern Italian Lake Garda has been fitted out with 160 SL 25/2 weatherproof rock speakers. 100V technology was used to accommodate the long cable lengths and for connecting several speakers to just a few amplifiers. WHD speakers now play the perfect background music throughout the park at all times!

## Finca on Mallorca

The large Mallorcan estate by the sea has been fitted out with 30 weatherproof WHD GL 100 speakers: Several terraces, the pool area and even the olive groves can be subtly filled with background music or powerful sound for parties. The music is streamed via the WHD Multiplayer app through the AirBridge wireless audio receiver, amplified by several WHD AMP 550s and finally dispersed to the outdoor speakers. A melodious dream in the Mediterranean!

### Music in the garden – pure and simple:

- ✓ Protection against theft
- ✓ Protection against damage
- ✓ No cleaning required
- ✓ Simple installation
- ✓ No additional space required
- ✓ Ideal for private and commercial use  
(Hotels, spa resorts, restaurants, leisure parks, company premises, etc.)

## Villa in Saudi Arabia

WHD speakers defy even the desert climate: A villa in Saudi Arabia has been fitted out with six IG 340 LED floor speakers in the terrace and pool area. Relaxing by the pool or at an evening terrace party – great sound and atmospheric lighting guaranteed!

## La Marquise Luxury Resort Complex

The expansive complex of the exclusive five-star hotel in Rhodes has been equipped with 37 weatherproof rock speakers by WHD. Subtle and powerful, they fit into the atmospheric surroundings of wind, sun and sea. All speakers are driven by the DAM 6000 digital audio multi-room system and controlled by KNX.

# We make it easy!

Save time by letting us plan your custom sound systems online!

1.

## Start project

Project information, including document upload

[planner.whd.de](http://planner.whd.de)

2.

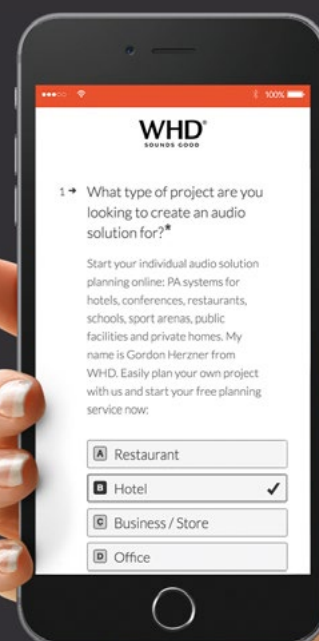

## We plan

We plan your custom solution within 48 hours.

3.

## Done!

You receive finished planning documents including a wiring diagram, equipment set-up and, if required, a consultation.

Terrace

Gardening

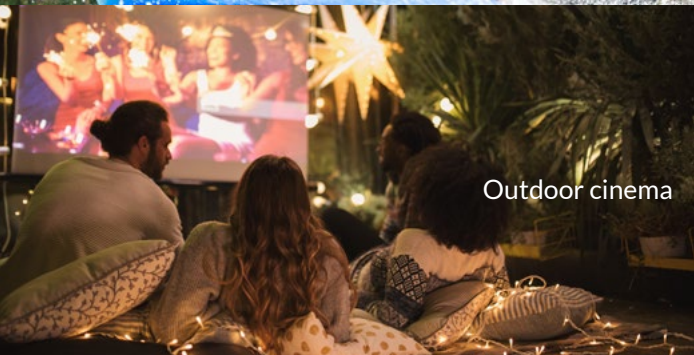

Pool

Ambient mood

Relaxation

Outdoor cinema

Garden

## The mood is livening up – with music in the garden!

### 1. Select suitable floor space

To increase the bass response, place the speaker near a wall. When choosing a location for the speaker, make sure that neighbors are disturbed as little as possible.

### 2. Set up the speaker

Alternatively: Perform excavation for built-in floor speaker.

### 3. Connect the cable

Plug in the supplied power cable (3m length) into an outer socket.

### 4. Secure against theft

Simply screw the speaker to the base plate using existing threads.

### 5. Enjoy music

Stream from your smartphone or tablet and use your favorite app.

It's simple to use your favorite streaming service, so you can enjoy music and audiobooks in the garden, too.

● ● ● Made in Germany

# Now you can enjoy even more music.

The clever and networked solutions from WHD make it possible!

## Top sound thanks to the latest DSP technology

We love high-quality sound!

That's why we've gone one step further and equipped our outdoor audio products with a DSP. This digital signal processor (DSP) allows dynamic sound adjustment depending on the volume and product. This allows us to get more out of our products, so you can enjoy even better sound.

DSP technology from WHD makes it possible!

## We are open – so get networking!

We love future-proof and networked solutions!

That's why we've made it possible for you to operate your WHD audio system in the garden with a SONOS amp or control it using Amazon Alexa – it's really that simple.

Extend your existing setup in the blink of an eye with your new WHD world of sound in the garden!
