GoSun GO

Description

The GoSun Go is the most portable model in the GoSun lineup. Using only the sun, the GoSun Go can bake, roast, or steam a meal as well as boil liquids, reaching temperatures as high as 550°F/ 288°C.

The package includes: A durable evacuated glass tube oven, two parabolic reflectors, EVA frame, stainless steel cooking tray, GoSun Dial, silicone cooking pans, universal action mount, cleaning brush, User Manual and Mini Cookbook to help users get started.

Benefits

Fast: Cooks a meal in as little as 20 minutes, boils water in 45 minutes, reaching temperatures above 550°F/ 288°C

Versatile: Roast, bake, steam, pasteurize water, rehydrate food, or heat drinks

Portable: Weighing just 2 pounds (0.9kg) the GoSun Go is ready for adventure on land and sea

Durable: Zipping up into a compression molded EVA foam clamshell, the Go was designed to absorb impacts

Cooks When Cloudy: GoSun's patented solar cooking technology absorbs a broad spectrum of radiation, so as long as you have a bit of sun, you're in business
