GoSun Sport

Description

Our fastest solar oven in the GoSun lineup, the Sport can bake, roast or steam a meal for two people in minutes, reaching up to 550°F (290°C). The Sport's compound parabolic reflectors and tubular design converts nearly 80% of all sunlight entering it's reflectors into usable heat.

The package includes: a durable borosilicate, evacuated glass tube cooking chamber, two foldable parabolic reflectors that fold to protect the tube like a clamshell, a stainless steel cooking tray, a rugged scrubby cleaning tool that attaches onto the tray's end, User Manual, Cook Booklet and stainless steel carrying handles.

Benefits

- Fast: Cooks a meal in as little as 20 minutes, reaching temperatures above 550°F/ 290°C.
Cooks When Cloudy: You don't have to see the Sun to solar cook! The GoSun is so effective almost no day is off limits!
Portable: Deploys in seconds and collapses into a durable package. GoSun anywhere!
Fuel-Free: No mess. No flames. No cost. Always ready to cook delicious food! Versatile: Steam, bake, fry, roast and boil, anything is possible inside the tube.
Two Year Warranty: The tubes are durable, made of borosilicate glass (like Pyrex®). If it breaks, we've got you covered.

Specifications

- Dry Weight: 7 lbs 12 oz
Cooking Capacity: 53oz (1.6L)
Unit Size: (Open) Length: 24" (61cm), Height: 16" (41cm), Width: 12" (30cm) (Closed) Length: 24" (61cm), Height: 8" (20cm), Width: 5" (13cm)
Estimated Power Output: 200 Watts in full sunlight
Maximum Temperature: 550°F (371°C)
Working Temperature: 200°F (93°C) - 550°F (288°)
