

Innovation in Cash Management

SERIES 4

TIDEL
Quality Cash Solutions

Tidel Series 4

Designed with new levels of usability, convenience, and serviceability, the Tidel Series 4 helps you effectively manage your cash deposits while adapting to the ever-changing needs of your business.

Tidel Series 4 Cash Management System

Enhanced serviceability, straight to your bottom line

Serviceability has never been easier and more cost-effective. The Tidel Series 4 main CPU board and power supply are easily accessible via the console, making service calls faster, more secure, and less expensive. The note validator maintenance door enables store managers to clear note jams without the need for a service call, providing substantial savings in cost and time.

Design efficiency from edge to edge

The Tidel Series 4 can be configured as a stand-alone system, with a height of a mere 18 inches, or is offered with a storage vault, mailbox drop vault, or pedestal. To manage the in-store change fund, the Tidel Series 4 also supports the Tube Vend module.

A user experience second to none

Sporting a new, 7-inch color screen with enhanced touchscreen capability, navigating menus has never been easier. The Tidel Series 4 also incorporates a new printer, which offers automated paper feed capability, an integrated paper cutter, and see-through screen to detect when the paper supply is running low. The Series 4 also utilizes an iButton electronic key, enabling simplified access to the note acceptor vault.

Flexible and scalable note capacity options

The Tidel Series 4 can accommodate two note storage cassettes that hold up to 2,250 notes per cassette (XL version) and up to 1,200 notes per cassette (standard version). The Series 4 also supports single or bulk note validators.
