

MYCO-MISTER mini User Manual

PLEASE READ THE INSTRUCTIONS TO
ENSURE SAFE USE OF THIS HUMIDIFIER

WARNINGS!

SAFETY (Please read carefully before use, failure to follow the instructions may result in fire, electric shock and/or serious injury)

1. This humidifier is intended only for indoor use.a
2. Thoroughly inspect the unit in its entirety for any cracks, chips, or damage which could cause the unit to leak. DO NOT USE if any damage is found.
3. Only a professional or authorized technician should repair this appliance.
4. Do not use hot water in the humidifier.
5. Only use water in the humidifier.
6. Do not add any detergents, chemical agents or metals to the base or water tank.
7. Do not fill beyond the max fill line.
8. Do not plug or unplug the unit from any type of power source with wet hands to avoid the risk of electric shock.
9. Connect only the electrical plug to a secure wall outlet.
10. Unplug the humidifier when not in use.
11. Do not attempt to empty, fill, or tilt the humidifier while it is in operation.
12. This appliance is not intended for use by children.
13. Keep humidifier away from children and infants.
14. If the power cord is damaged, it must be replaced by the manufacturer or a qualified service engineer to avoid hazard and electrocution.
15. IMPORTANT: Using tap water with a high mineral content aka "hard water" with any humidifier can cause a fine white dust to be emitted. To avoid this, use distilled or demineralized water.

OPERATING ENVIRONMENT

1. The mist direction should be aimed away from walls, electric appliances, and furniture as they may become damp or be left with a white powder like residue.
2. Place the humidifier on a firm, flat, dry and level surface.
3. Keep unit away from heat sources, i.e. heaters, furnaces, and avoid direct sunlight.
4. DO NOT use this appliance in any kind of flammable environment.
5. Keep unit in normal room temperatures. Do not operate the unit in freezing temperatures

- Place the unit at least 6ft away from TVs, audio equipment and any other electronic appliances.
- Do not place the unit near curtains

OPERATING INSTRUCTIONS

- Ensure the unit is off and unplugged. Separate the water tank from the base.
- Unscrew the cover and add water. Ensure the water level stays below the max fill line.
- Close and tighten the cover and return the tank to the base.
- Plug the unit in. Use the knob to adjust the level of fog.

TROUBLESHOOTING

WARNING! DO NOT ATTEMPT TO REPAIR THE HUMIDIFIER YOURSELF

PROBLEM	REASON	SOLUTION
Light off, fan not working, no fog	Power not connected. Power knob off.	Try another outlet. Turn knob to on.
Light on, fan on, no fog	No water in tank, fog level too low.	Unplug and add water. Turn up fog.
Light on, fan not working, no fog	Too much water in the tank.	Unplug and reduce the level of water.
Small amount of fog.	Nozzle is dirty.	Clean nozzle, tank and base

GENERAL ADVICE

- Always use a hygrometer to check the humidity levels are correct. In cold weather, windows and walls may sometimes fog or develop excess condensation from too much humidity. If this occurs, reduce the mist intensity setting. Allowing too much moisture to accumulate could allow bacteria and mold to grow, and can also damage furniture, walls and wallpaper.
- To prolong the life of this humidifier, using distilled water is highly recommended.

MAINTENANCE AND STORAGE

WARNING: DO NOT clean while the unit is switched on. Turn off the power and unplug the unit from its power source.

- DO NOT use detergents or chemicals to clean the tank or base. Detergent dissolved in the water supply can interfere with the mist.
- If the water tank is extremely dirty, soak it with a mild bleach and water solution and rinse clean. DO NOT use detergent.
- Wipe the exterior of the body with a damp cloth.
- DO NOT spray water or any liquid onto the control.
- Never immerse the base in water or let water enter other openings.
- Clean and rinse the water tank and mist nozzle with lukewarm water frequently to avoid mineral buildup.
- Keep the nebulizer and water sensor free of mineral deposits. Remove the water tank and empty the reservoir. Clean the nebulizer and sensor with a soft brush such as an old toothbrush.
- DO NOT scrape the nebulizer or water sensor.
- DO NOT clean with tools that have metal parts.
- DO NOT leave water to sit in the tank for more than a couple of days as it may cause bacterial growth.
- Always empty the tank if not planning to use it for a few days.
- When not in use, store in a cool, dry location in original packaging.
- If water is left in the unit during storage, it may harden and leave deposits that may affect the unit from operating properly.
- Leave the cap of the water tank loose in storage. This will prolong the life of the gasket.

WARRANTY: This product is guaranteed under warranty and covers defects in material or workmanship from 1 year of date of purchase. The original bill of purchase (with purchase date) must be submitted. The warranty will not apply in cases of: Misuse: by non-compliance of the instructions, normal wear and tear, incorrect use, e.g. overloading, non-approved accessories, force or damage caused by external forces, if the plug has been tampered with or removed, partially or completely dismantled product, or interference by non-qualified persons.

PRODUCT SPECIFICATIONS:

PRODUCT: HUMIDIFIER

CAPACITY: 4L

SIZE: 11X9.4 INCHES

RATED VOLTAGE: 110-240V 50/60Hz

MAXIMUM EVAPORATION: 380ml/H

USAGE AREA: 108-215 Sq ft

LED light: 3 Color (blue, green, red) No independent control, color changes automatically

Dual 360 mist nozzle makes it easy to adjust mist direction and speed

POWER: AC ADAPTER

MODEL: FX-009

MATERIAL: PP&ABS

WEIGHT: 1 POUND

POWER RATING: 27W

NOISE: <30dB(A)

USAGE TIME: 10-12 HOURS
