CULTURE WORK

CLONING
MUSHROOMS &
PREPARING
AGAR PLATES

PREPARING
SPORE SYRINGES
& INOCULATING
GRAIN SPAWN

PREPARING
A MONOTUB &
MORE!

SETUP

Remove from carrying case and unfold. Assemble all poles by unfolding and interlocking the shock-corded pole sections. Insert the poles into the pole sleeves.

To collapse: Remove poles and stack sidewalls. Fold in half bringing two corners together. Fold the other two corners in toward the center and twist to manipulate until compact.

HOW TO CLEAN

We recommend cleaning between each use to keep all surfaces as sterile as possible.

1. Remove any spills using a damp cloth and mild cleanser.
2. Sanitize by spraying with a 70% isopropyl alcohol solution inside and out. Allow ample time to dry.
3. DO NOT use bleach or abrasives.

BURN WARNING

DO NOT USE AN OPEN FLAME INSIDE STILL AIR BOX.

Using an open flame in a still air box poses a fire risk and may result in accidental burns and vapor ignitions, especially when using flammable liquids or aerosols (including, but not limited to, ethanol and isopropyl alcohol.) Only use an open flame in a well-ventilated area.

WARNINGS

- Children should never be left unattended around the NocBox or allowed to play with it, as it poses a potential suffocation danger.
- Keep the NocBox away from heat sources such as heaters, radiators, furnaces, and direct sunlight.
- Only use the NocBox for the purpose for which it was intended.
