KEY FEATURES

WIRED/WIRELESS REMOTE

Wireless Remote

Ergomotion remotes are modern and stylish devices available in either wired or wireless configurations.

HEAD / FOOT

Head and Foot Articulation

Elevate the head or foot of the Ergomotion bed to reduce snoring and relieve joint pain.

ONE TOUCH FLAT PRESET

One Touch Flat Preset

With the press of a button, gravity brings the bed back to a flat position so you can climb in and out of bed with ease.

3 PRESETS

3 Programmable Presets

Use programmable presets to reach your favorite positions in seconds.

ZERO G

Zero G

One touch button that raises the legs slightly above the heart to promote circulation and relieve pressure off the lower back, mimicking the posture astronauts assume during take-off.

MASSAGE MOTORS

Massage

Two high-power, low-noise sonic massage motors help you unwind in the comfort of your home.

LIGHTS

Lights

Soft LED lighting under your bed helps guide you through the dark safely.

VOICE ACTIVATED

Offline Voice Control

Use voice commands to control your adjustable base via the Wand Offline Voice Control system.

USB CONVENIENT

Dual USB Ports

Provides the ultimate in convenience for USB devices. Charging or powering phones, tablets, or other devices is within easy reach.

FOLDABLE

Foldable

Provides the ultimate in convenience for USB devices. Charging or powering phones, tablets, or other devices is within easy reach.

UPS SHIPPABLE

UPS Shippable

Meets standards for US United Parcel Service shipping. No delivery service scheduling required.

2" ULTRA SLIM PROFILE

2" Ultra Slim Profile

Maintains the beauty of the bedroom set by fitting almost invisibly between the mattress and the base.

3-IN-1 LEG

12" Stackable Legs

Provides multiple height options so the base can be set to a variety of heights, accommodating aesthetics or different levels of underbed storage.

ERGOMOTION FEATURES

ZERO STANDBY

Zero Standby Power System

The Ergomotion bed features energy efficient technology to help you cut your bills and your environmental footprint. When not in use, the Ergomotion bed consumes less than 1 watt of energy.

POWER OUTAGE PROTECTION

Power Outage Protection

If electrical power is lost, the base can be brought to a flat position by pressing the button on the power down box under the base.

SILENT DRIVE MOTORS

Silent Drive Motors

The reliable Ergomotion motors are designed for extremely quiet operation, so you won't be disturbed while lounging, reading, or sleeping.

GRAVITY RELEASE

Gravity Release

Slow, controlled return to flat powered only by gravity. The Head and foot motors are designed to lower the mattress by reacting only with gravity, never pulling downwards, which minimizes pinch points.

ACCESSORY OPTIONS

LEG OPTIONS

Interchangeable Leg Options

A variation of styles are available, including 3-in-1 legs. The 3" + 6" leg heights can work separately or together for a height of up to 9 inches.

HEADBOARD BRACKETS

Headboard Brackets

Connect your Ergomotion bed frame to your favorite headboard with our brackets for a cohesive and polished look to complement the rest of your bedroom's decor.
