TRAVEL VISION R6

"The best of both worlds"

The Travel Vision R6 satellite antenna combines the advantages of a fully automatic system with that of a portable system at a very attractive price!

Watch television anywhere

Wherever you are staying, with the Travel Vision R6 you can enjoy your favourite TV programmes anywhere.

Optimum freedom

The R6 offers optimum flexibility: place your caravan or camper in the shade from a tree, setup the system anywhere you like and enjoy your favourite television programmes.

Easily removable anti-theft control panel

Once the system has been aligned, you can simply remove the control panel and store it in a safe place inside. You can now enjoy your favourite TV programmes.

User friendly operation

No complicated installation is needed, just slide the dish into the tripod, connect the cable and the rest goes automatically by pressing the start button.

Fully automatic portable satellite antenna

Travel Vision makes watching TV on holiday affordable and accessible for everyone
