

Remove sticker from tube and let flatten out if needed.
With masking tape place a few strips on the sticker and place on desired location.

Once in place remove tape from one side and slowly remove the backing from the sticker, keeping an eye on the corners so they do not stretch or tear.

With other hand place sticker to wall making sure sticker is still in place

Repeat for the other side, slowly removing the sticker backing while with other hand pressing sticker to wall.

With hand or soft squeegee press all air bubbles out of sticker and Enjoy!

To remove do so slowly and carefully as you can reuse the sticker several times if keep clean.
