

BALINEUM

THE CURIOS COLLECTION BY FEE GREENING

A collaboration between Balineum and UK-based artist, Fee Greening, The Curios Collection boasts 12 tile designs that draw on Greening's original ink and watercolor illustrations. Each motif references nature, be it the flora and fauna outside her home in the English countryside, or symbolic elements like the sun and moon, which call to mind her fascination with medieval alchemical drawings and illuminated manuscripts.

To recreate Greening's charming illustrations on handcrafted tiles, artisans in Stoke-on-Trent screen print the outline of her artwork and then hand paint each tile with colour details. As with all handmade products, slight variations will occur, be it subtle irregularities in shape, shade or crazing. This will not affect the performance or serviceability of the tile. In fact, it adds to the unique characteristics of a handmade product. You may even spot the tile-maker's fingerprints on the underside.

The Curios Collection can be installed in combination with our plain Hanley tiles. Consider mixing various symbols to create a natural curiosities effect or curate a group of corresponding motifs, like shells and coral, to evoke a theme.

Tiles are offered in 126mm x 126mm squares and are made to order in 10-12 weeks depending on your order size.

LEAD TIMES

All tiles are made to order in 10-12 weeks depending on your order size. Custom blends and sizes are available upon request and will time and cost.
