HANLEY TUBE LINED TILES

Crafted using a historical decoration technique, these handmade ceramic tiles are embellished with raised piping detail. Designed to correspond with our Hanley tile shapes and glazes, they can be used in a variety of manners, from a simple inlaid border to a decorative "tapestry" set within a tiled wall.

Here within is a selection of patterns and sizes that can be created in any combination of our 30 glaze colours. As each one is made by hand, you may also create your own design. We can play with scale, interpret a wallpaper or fabric motif, an architectural detail, or just about any pattern element you wish to translate onto tile.

Custom sizes and glaze colours also available. As with all handmade products slight shade variation will occur. Also because of the nature of the glazes used, crazing may occur. This will not affect the performance or serviceability of the tile. In fact, it adds to the unique characteristics of a handmade product.

Due to the intricacy of the production, these tiles are suitable only for smallerscale projects under 25 sqm.

LEAD TIMES

All tiles are made to order in 8-16 weeks depending on order size. Clients own designs are available but may add time to your order. There is no minimum order.
