

**KREWE**

***ACTIVE***

*WHATEVER MOVES YOU*

Created for active people who want both style and active performance eyewear. KREWE ACTIVE is made with movement-focused construction, ultra-lightweight materials and features polarized lenses and special coatings for maximum eye protection—making them ready for any sport, workout or fitness-related activity.

---

Designed for style and the duality of work and play—to effortlessly go from one activity to the next—all in the same frame—for whatever moves you.

# EIGHT FRAMES

24 SKUS

## **BIO-PLASTIC**

FERRIS · EMMETT · PERDIDO · LABORDE · ELLIS NYLON

Made from African organic plant waste, resulting in a 50% bio-neutral material—each frame is hand-dyed to get a soft, silky smooth matte finish. There is also less byproduct by only utilizing material that will end up in the frame. Custom-made for ACTIVE, the brow of these frames feature air-vents to help let off steam while you hustle.

## **TITANIUM**

AUDUBON · BANKS · DRISKILL

These frames are the most fashion-forward frames in the collection. Made with premium titanium and well-designed construction with a slight curvature for reduced glare.

BIO-PLASTIC

TITANIUM

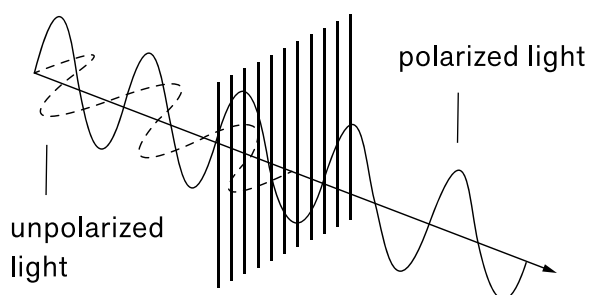

# FEATURES & BENEFITS

Full-fledged protection from dawn to dusk. Our polarized lenses block glare and reflection on outdoor surfaces like water, snow, sand and even your car windshield—while the UVA/B coatings protect your eyes from the sun's harmful rays. Consider yourself covered.

---

## ACTIVE-READY TECH

100% UVA/B + polarized lenses

FALL-OFF-YOUR-FACE-PROOF  
with a 240° grip

25% LIGHTER ultra-durable
