

Which Word

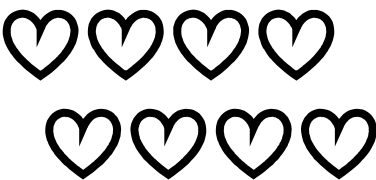

Directions: Pick a word from the deck and write an underscore for each letter of the word. The learner then tries to guess the word. To do this learner gets hints by calling out letters. As learner guesses letters that are contained in the word, write them above the corresponding underscore. As learner guesses letters that are not contained in the word, color in a heart. If learner correctly guesses the word before all hearts are colored in, he wins.

1)  

2) 

3) 

4) 

5) 

Hint: "E" is the most common letter!
