# 1) Assembling the Floor

A) Take 6 horizontal poles & lay them like a rectangle.

B) Place 4 “B” Corner Pieces on all 4 corners. & place a “4” connector on one Side Between both Horizontal poles. and a “2” Connector on the other side between both horizontal poles as well.

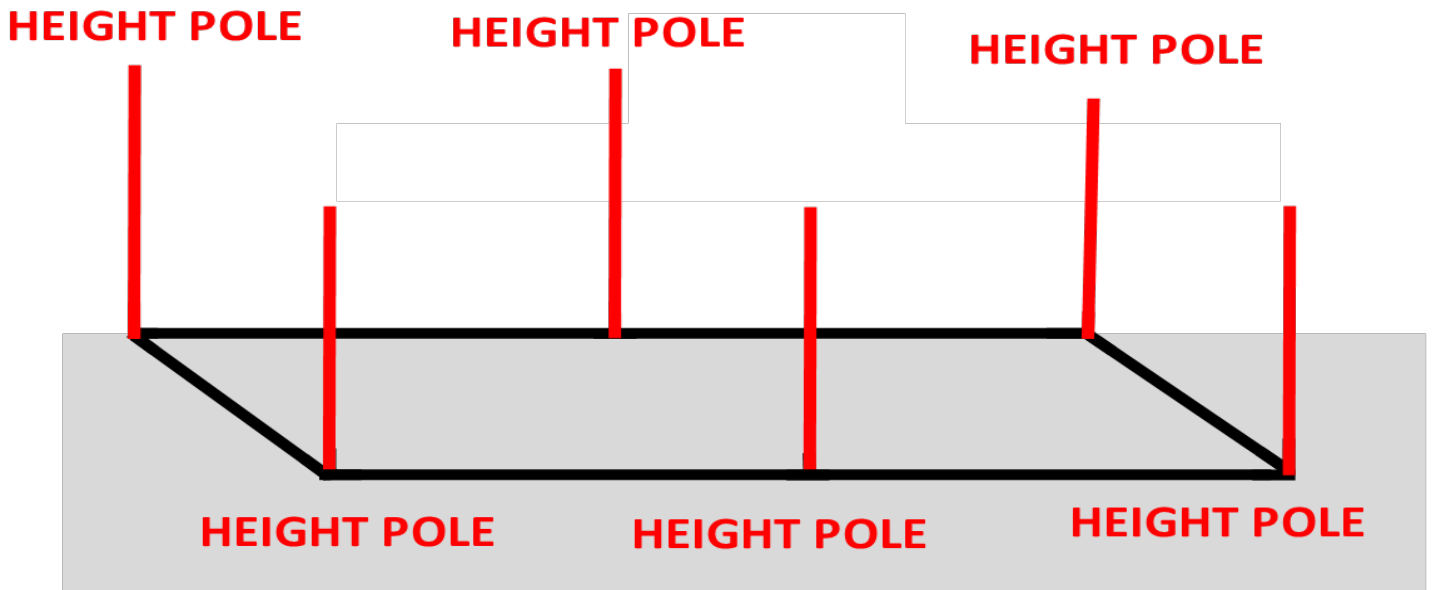

C) Extended the poles to the sukkah size which you desire.

( Keep in mind when placing the horizontal poles into the corners/Connectors.

Each pole on one end is **Thicker** & one end is **Thinner**.

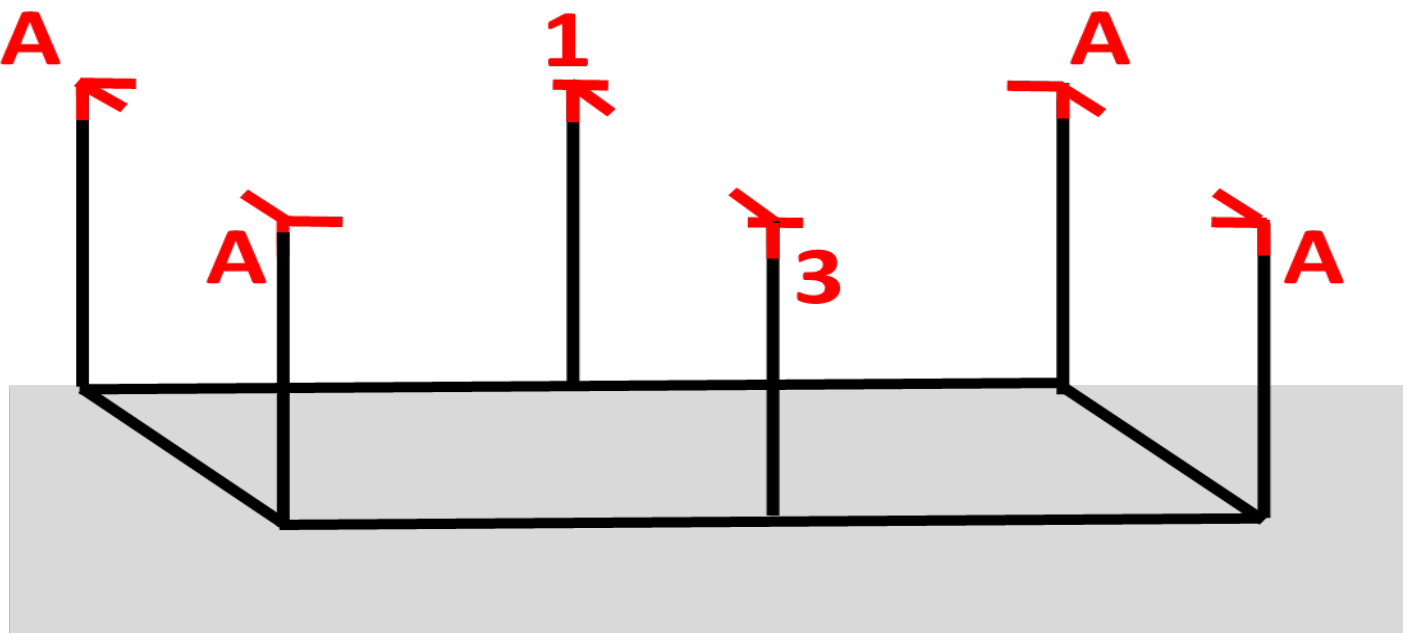

Therefore when connecting the poles into the corners/Connectors. Make sure each corner/Connectors. has on one end the thicker side connected and one end the thinner side)

## 2) Inserting the Height Poles

- A) Take the 6 Height poles & expand them to its max.
- B) Insert four of them into all 4 corners - "B" *Corner* & Two of them into the "2" & "4" Connector

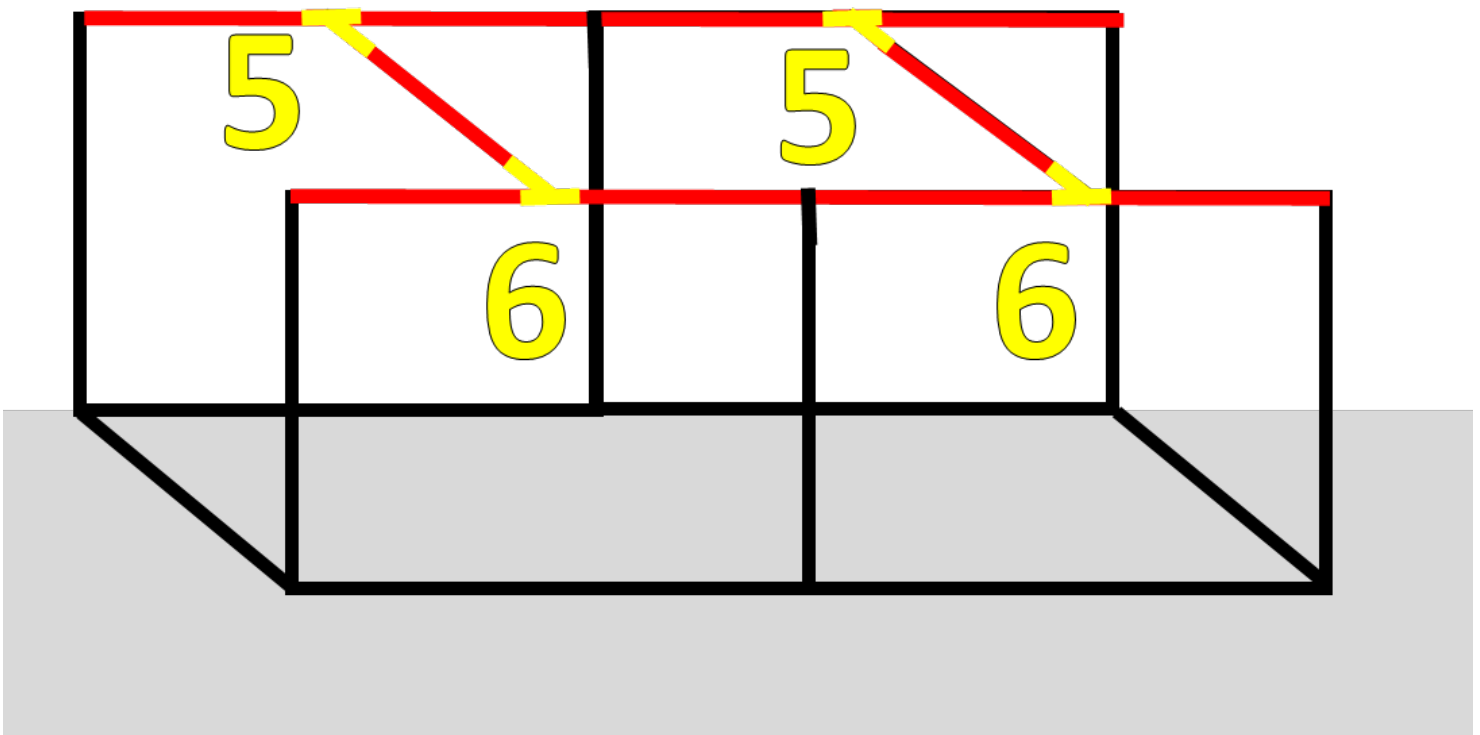

## 3) Assembling the Roof

- A) First Place the x4 "A" Corner pieces on all 4 Height Corner poles. & the "2" & "4" Connector Pieces in the middle (Just like the bottom)

**HORIZONTAL POLE**

**HORIZONTAL POLE**

C) Take 2 horizontal poles and put the “5” connector on each (take the “5” connector & slide it to the middle of the pole)

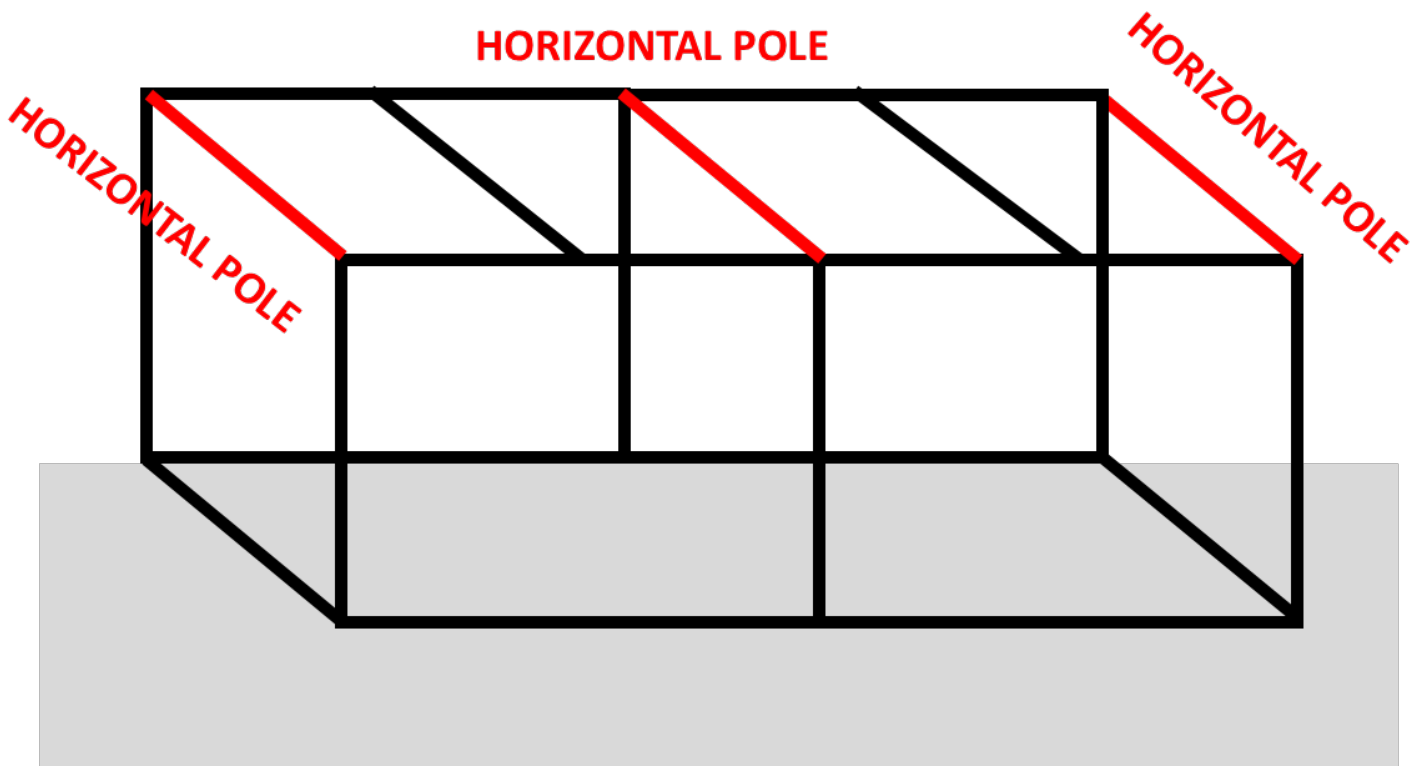

D) Now take these 2 poles with the “5” connector on each & connect them onto one side of the sukkah

E) Now do the same with the other side:

Take 2 horizontal poles and put the “6” connector on each (take the “6” connector & slide it to the middle of the pole)

Now take these 2 poles with the “6” connector on each & connect them onto one side of the sukkah

G) Take two horizontal poles and place them both between both “5” & “6” Connectors

F) Now close the the Top Frame.

## 4) Walls

Determine what size sukkah you will be building based on the chart below using the appropriate walls.

Connect the top & the bottom of the wall via velcro straps  
to connect one wall to another you will need to zipper it together
