Home is where the heart is

It is a sanctuary for feelings, affection and intimacy. A place to return to, a safe harbor, a comfortable nest for ourselves and our family.

We here at Nuvo Italia have dedicated ourselves to the home and its central role, pursuing an ideal of harmony that over the years has defined the Nuvo Italia style around South Africa: an environment where every element, shape and colour expresses beauty in itself and is perfectly in tune with all that surrounds it.

This idea has inspired every one of our models, at every point in our selection: from the designs to the selection of leather and fabrics, from the innovations aimed at improving comfort and the assistance offered in our store right through to the moment of delivery to your home.

Innovation **Unique & Special**

Innovation is a dynamic concept that Nuvo Italia applies to not only technology, but also to lifestyles in the home: products such as electronic motion sofas or soft touch mechanisms are just a few examples of this ability to evolve and anticipate customers' needs. That's why Nuvo Italia has become a market leader in furnishings.

Our exclusive store is an expression for beauty and a calling card for everything we do. Our sales points are not just about selling, they are about transforming every home into somewhere unique and special.
