

PrimaCreator P120 firmware update

There are 3 files available: ui.bin, update.bin and lcd.bin

*If there is no problem with logo and graphics, only update lcd.bin and update.bin

How to update:

update.bin update.bin: This file is for motion controller (White version)

- 1. Save the file "update.bin" on the SD card.
- 2. Turn on the printer
- 3. Press "print"
- 4. Navigate to the file "update.bin" and choose to print that file.
- 5. The printer will now update.
- 6. Restart the printer

0	level_wheel_fixed.gcode
G	lcd.bin
6	deohallare.gcode
6	moai-new.gcode
G	Hairy_Lion.gcode
0	update.bin

Update firmware on Blue version:

Download and save the firmware.bin ocn a clean SD card. Create an empty file with the name "fcupdate.flg".

These two files should be on the card.

Dela med 🔻	Bränn	Ny mapp	
er	📄 fcupdat	te.flg	
ade filer	🗌 firmwai	re. <mark>b</mark> in	
ord			
are platser			
rive			

Put in the SD card in the printer and restart the printer. The update will be done by itself. Just wait about 30 seconds.

Icd.bin lcd.bin: This file is UI contoller firmware

- 1. Save the file lcd.bin on the micro SD card.
- 2. Move the print head/X-axis all the way to the left side so it triggers the end-stop switch.
- 3. Move the build table/Y-axis to the back so that the end-stop switch triggers.
- 4. Make sure both Y/X end-stop switch are triggered. Press and hold down the menu nob.
- 5. Start the printer while holding down the menu nob.
- 6. Wait until the fans turns on, then release the menu nob.
- 7. Wait about 1 minute and the restart the printer again.

ui.bin UI.bin: Resources and GUI are inside this file

- 1. Turn on the printer
- Make sure the printer is connected to your wireless network. You need to do the Wi-Fi setup from the mobile application. (android only) <u>http://primacreator.com/downloads/</u>
- 3. Download the firmware update file from http://primacreator.com/downloads/
- Open your web browser and put in the printers IP number followed by "/up"
- 5. Click the button "choose file" and located the ui.bin file that you downloaded.

- 6. Click the "upload" button and wait until it says OK in the window.
- 7. Restart the printer.
